Oral mycoplasmas in Sjögren’s syndrome

Reports and Bulletins prepared by the Association of Clinical Biochemists

The following reports and bulletins are published by the Association of Clinical Biochemists. They may be obtained from The Administrative Office, Association of Clinical Biochemists, 7 Warwick Court, Holborn, London, WCR15DP. The prices include postage, but air mail will be charged extra. Overseas readers should remit by British Postal or Money Order. If this is not possible the equivalent of 50p is the minimum amount that can be accepted.

**SCIENTIFIC REPORTS**

4 An Evaluation of five Commercial Flame Photometers suitable for the Simultaneous Determination of Sodium and Potassium March 1970 P. M. G. BROUGHTON and J. B. DAWSON 85p ($2)

**SCIENTIFIC REVIEWS**

1 The Assessment of Thyroid Function March 1971 F. V. FLYNN and J. R. HOBBS 62p ($1.50)

**TECHNICAL BULLETINS**

9 Determination of Urea by AutoAnalyzer November 1966 RUTH M. HASLAM 42p ($1)

11 Determination of Serum Albumin by AutoAnalyzer using Bromocresol Green October 1967 B. E. NORTHAM and G. M. WIDDOWSON 42p ($1)

13 An Assessment of the Technicon Type II Sampler Unit March 1968 B. C. GRAY and G. K. MCGOWAN 42p ($1)

14 Atomic Absorption Spectroscopy. An outline of its principles and a guide to the selection of instruments May 1968 J. B. DAWSON and P. M. G. BROUGHTON 42p ($1)

15 A Guide to Automatic Pipettes (2nd edition) June 1968 P. M. G. BROUGHTON 42p ($1)

16 A Guide to Automation in Clinical Chemistry May 1969 P. M. G. BROUGHTON 62p ($1.50)

17 Flame Photometers (2nd edition) 1969 P. WILDING 62p ($1.50)

19 Spectrophotometers. A comparative list of low-priced instruments readily available in Britain May 1970 C. E. WILDE and P. SEWELL 62p ($1.50)

20 Quantities and Units in Clinical Biochemistry June 1970 P. M. G. BROUGHTON 62p ($1.50) More than 30 copies in units of 10 at 20p

21 Filter Fluorimeters: A comparative list of 18 instruments September 1970 H. BRAUNSBERG and S. S. BROWN 62p ($1.50)

23 Interchangeable Cells for Spectrophotometers and Fluorimeters September 1971 E. S. BROWN and A. H. GOWENLOCK 62p ($1.50)
The November 1971 Issue

THE NOVEMBER 1971 ISSUE CONTAINS THE FOLLOWING PAPERS

Electron microscope study of PNH red cells and AET-treated normal red cells (PNH-like cells) S. M. LEWIS, G. LAMBERTENCHI, S. FERRONE, AND G. SIRCHIA

The long-term storage of blood for transfusion using an improved container for freezing the red cells in liquid nitrogen W. J. JENKINS AND J. BLAGDON

Stability of prothrombin and factor VII in freeze-dried plasma M. BROZOVIC, L. J. GURD, I. ROBERTSON, AND D. R. BANGHAM

Ascorbic acid status in iron-deficiency anaemia A. JACOBs, D. GREENMAN, E. OWEN, AND I. CAVILL

Vitamin B12 levels in erythrocytes in hypochromic anaemia R. J. HARRISON

Quality control in routine haemoglobinometry I. CAVILL

The effect of oxygen on the fibrinolytic enzyme system in vivo G. M. CUNNINGHAM, G. BOYD, J. WINDBANK, F. MORAN, AND G. P. MCNICOL

The effect of pH on the multiplication of a pseudomonad in chlorhexidine and cetrimide D. C. J. BASSETT

Bacteriocine typing of Klebsiella spp FELICITY A. HALL

Quantitative studies on the salivary flora P. W. ROSS

The effect on sepsis rates of closing and cleaning hospital wards PAUL NOONE AND ROSE J. GRIFFITHS

The distribution of plasminogen activator in the male genital tract R. C. KESTER

Multiple immunological abnormalities in a family ALASTAIR M. S. MASON AND PETER L. GOLDING

Sudden unexpected death in infancy and hyper-immunization G. E. D. URQUHART, R. W. LOGAN, AND M. M. IZATT

Standardization of clinical enzyme assays D. W. MOSS, D. N. BARON, P. G. WALKER, AND J. H. WILKINSON

Malignant lymphoma of parotid associated with Mikulicz disease (benign lymphoepithelial lesion) J. G. AZZOPARDI AND D. J. EVANS

Fat-laden macrophages in cerebrospinal fluid as an indication of brain damage in children D. C. CHESTER, J. L. EMERY, AND S. R. PENNY

Technical methods

A carbon-dioxide-in-air incubator M. W. SCRUTON

An inexpensive and demountable walk-in incubator R. N. P. SUTTON AND G. AYLETT

A simple device for counting Jerne's plates to detect haemolytic antibody-forming cells G. PETRACCHI, M. BENDINELLI, AND G. FALCONE

Present day practice

Conditions for the estimation of serum lactic dehydrogenase activity using the LKB 3600 reaction rate analyser and the range found in healthy subjects R. W. RICHARDSON AND C. P. PRICE

The Association of Clinical Pathologists: 87th general meeting

Letter to the Editor

Book reviews

Copies are still available and may be obtained from the PUBLISHING MANAGER,
BRITISH MEDICAL ASSOCIATION, TAVISTOCK SQUARE, LONDON, WC1H 9JR, price, 105p.
Galectin-3, a potential tumor marker, was evaluated in the context of its role as a regulator of the immune system and its implications for diagnostic and therapeutic strategies in cancer.

Hodgkin's disease, a type of lymphoma, continues to be a significant area of research, with ongoing efforts to improve diagnostic accuracy and treatment outcomes.

Hyperkalemia, a condition characterized by high blood potassium levels, presents challenges in clinical management, particularly in patients with chronic kidney disease.

Hypertension and diabetes, two major risk factors for cardiovascular disease, are discussed in the context of their progression and the need for preventive and therapeutic strategies.

Hypothyroidism, a condition characterized by underactive thyroid gland, and its management through levothyroxine replacement therapy, are highlighted for their importance in maintaining metabolic balance.

Kaposi's sarcoma, a type of cancer that affects the skin and other tissues, continues to be a topic of interest, especially in the context of immunodeficiency diseases like HIV/AIDS.

Liver cirrhosis, a progressive liver disease, is reviewed with a focus on its etiologies, clinical manifestations, and treatment approaches.

Multiple myeloma, a type of bone marrow cancer, is discussed with an emphasis on its role in浆细胞瘤, and the latest therapeutic strategies.

Ovarian cancer, one of the most lethal cancers in women, is reviewed with a focus on its early detection, diagnosis, and emerging therapeutic options.

Parkinson's disease, a neurodegenerative disorder, continues to be a focus of research, with recent studies highlighting potential therapeutic targets.

Posterolateral thoracic aortic arch, an anatomical variation, is associated with congenital heart defects and reviewed for its surgical and medical implications.

Prostate cancer, the most common cancer in men, is discussed with an emphasis on its screening, diagnosis, and treatment strategies.

Rhabdomyosarcoma, a type of soft tissue sarcoma, is reviewed with a focus on its multidisciplinary management and outcomes.

Sarcoidosis, a systemic inflammatory disease, is discussed with an emphasis on its diagnostic approach and emerging therapeutic strategies.

Scleroderma, a connective tissue disease, is reviewed with a focus on its pathogenesis and management.

Staphylococcus aureus, a common bacterial pathogen, continues to be a focus of research, with ongoing studies on its antibiotic resistance and virulence factors.

Thyroid cancer, a type of cancer arising from the thyroid gland, is reviewed with a focus on its early detection, diagnosis, and treatment options.
and plasmolin, enzymatic and immunological determination in different human and pathological states, 381

- assay by haemagglutination inhibition technique, 386

Plastic envelope for safe transport and rapid identification of "high risk" specimens in hospital laboratories, 367

Platelets. See Blood platelets

Pleural effusions, rheumatoid, cytdiagnosis of, 95

- plaques, parietal, pathology and relation to asbestosis in lungs, 348

Pneumonia, fatal, associated with group O streptococci in infancy (P), 82
