Contents

**Review article**
Histomorphometry of bone  PA REVELL page 1323
Study of nuclear sizes in the centres of malignant and benign lymphoid follicles  J CROCKER, EL JONES, RC CURRAN page 1332
Subarachnoid haemorrhage due to upper cervical trauma  WA HARLAND, JF PITTS, AA WATSON page 1335
Microdeposits of amyloid in sclerocalcific heart valves: a histochemical and immunofluorescence study  YA GOFFIN, WENDY MURDOCH, GG CORKWELL, GD SORENSON page 1342
Is enrichment culture necessary for the isolation of *Campylobacter jejuni* from faeces?  DN HUTCHINSON, FJ BOLTON page 1350
Detection of penicillin tolerance in streptococci  GRETA J SLATER, D GREENWOOD page 1353
Selective Kirchner medium in the culture of specimens other than sputum for mycobacteria  DA MITCHEISON, BW ALLEN, D MANICKAVASAGAR page 1357
Assessment of fat malabsorption  TEH LIP BIN, M STOPARD, S ANDERSON, A GRANT, D QUANTRILL, RH WILKINSON, DP JEWELL page 1362
Non-volatile fatty acids in the diagnosis of non-specific vaginitis  CA ISON, CSF EASMON, SG DAWSON, G SOUTHERTON, JWR HARRIS page 1371
Measurement of the enzymes lactate dehydrogenase and creatine kinase using reflectance spectroscopy and reagent strips  JF STEVENS, W TSANG, RG NEWALL page 1371
Fibronectin in blood products—an in vitro and in vivo study  JT REILLY, BA MCVERRY, MJ MACKIE page 1377
Effect of new plastics and leucocyte contamination on in vitro storage of platelet concentrates  MA TAYLOR, NP TANDY, ID FRASER page 1382
No evidence for a prethrombotic state in stable chronic inflammatory bowel disease  EAR KNOT, JW TEN CATE, O CH LEEKSMA, GN TYTGAT, J VREEKEN page 1387
Identification of cellular immunoglobulins in chronic lymphocytic leukaemia by immunoperoxidase staining  GERALDINE M MARKEY, RE MCCONNELL, HD ALEXANDER, TCM MORRIS, JH ROBERTSON page 1391
Lactoferrin-deficient neutrophil polymorphonuclear leucocytes in leukaemias: a semiquantitative and ultrastructural cytochemical study  JUN MIYAUCHI, Y WATANABE, Y ENOMOTO, KEI TAKEUCHI page 1397

**Technical methods**
Revitalising postmortem coronary angiography  SB COGHILL, SM NICOLL, A MCKIMMIE, I HOUSTON, BM MATTHEW page 1406
A simplified hot-wire cutting aid for PVC trays used in radioimmunoassay  A ANDERSON, G FLEMING, CD INSKIP, GK SCOTT page 1410

Contents

No 1 JANUARY 1983

Cerebrospinal fluid concentrations of hypoxantine, xanthine, uridine and inosine: high concentrations of the ATP metabolite, hypoxantine, after hypoxia  RA HARKNESS, RJ LUND ................................................... 1
Application of reflectance spectroscopy to the estimation of uric acid, urea and glucose: an evaluation of the Ames Seralyzer  JF STEVENS, RG NEWALL ................................................................. 9
Serum copper: a marker of disease activity in rheumatoid arthritis  AAR YOUSSEF, B WOOD, DN BARON ......................................................... 14
Value of copper-associated protein in diagnostic assessment of liver biopsy  P GUARASCO, P VENTIS, U CEVKEBAS, B PORTMANN, R WILLIAMS ......................... 18
Haemolytic uremic syndrome complicating long-term mitomycin C and 5-fluorouracil therapy for gastric carcinoma  J CROCKER, EL JONES .......................................................... 24

Macroglubulinaemia and intestinal lymphangiectasia: a rare association  M HARRIS, IE BURTON, JH SARIFE ......................................................... 30
Impaired production of mononuclear cell procoagulant activity in chronic lymphocytic leukaemia  S CORTELLAZZO, P VIERO, T BARRUT, M COLUCCI, N SEMERARO 37
Stability of cyclosporin A in human serum  JM SMITH, JM MOWS, EC GORDON-SMITH ................................. 41
Analysis of large-cell lymphomas using monoclonal and heterologous antibodies  P VAN DER VALK, G VAN DEN BESSELAR-DINGJAN, MR DAHA, CILM MEIJER 44

Prognostic value of tumour thickness in cutaneous malignant melanoma  TONA JEFFREY, P ROYSTON, C SOWER, G SLAVIN, A PRICE, A POMERANCE, S GOLUMALI, D PINTO .......................................................... 51

Intermediate filaments in smooth muscle tumours  DJ EVANS, IA LAMPERT, M JACOBS ................................................................. 57

Carcinoid disease, adenocarcinoma of jejunum and its squamous carcinoma complications  CI O’BEIRN, S SAVERTWUTI, NJ HODGSON, DJ EVANS .................................................. 62
Neuroblastoma arising in a mature cystic teratoma of the ovary  HAS REID, JD VAN DER WALT, H FOX ..................... 68

Intestinal lactase, sucrase and phosphatase in relation to size, sex and site of intestinal biopsy in 477 Irish subjects  R KEANE, JG O’GRADY, J SHEIL, FM STEVENS, B EGAN-MITCHELL, B MCNICHOLL, CF MCCARTHY, PF FOTTRELL ....................... 74
Comparison of selective media for isolation of Campylobacter jejuni-coli  TF BOLTON, D COATES, FM HINCHLIFFE, L ROBERTSON .... 84

Household pets as a potential reservoir for Clostridium difficile infection  SP BORIELLO, PAULINE HONOUR, T TURNER, PIOLA BARCLAY, RJ BLACKWOOD, MR CARTER, RF COLUCCI, LK HOGAN, MJ MITCHELL, MJ SWAIN, P MCGREGOR, JU MCMAHON, PB ROWLANDS, JD WALES 88

Isolation of Clostridium difficile from patients with cancerous ulcerative colitis  HELEN MALAMOU-LADAS, S O’FARRELL, JO NASH, SOAD TABACQI .................................................. 88

Relative carriage rates of nuclear dehydrogenating clostridia in two populations of different colorectal cancer risk  SP BORIELLO, BS DRASAR, A TOMKINS, MJ HILL ........................................................................... 93
Biotyping of Haemophilus using API 100S—an epidemiological tool?  S MEHTAR, SA AFSHAR ........................................................ 96
Detection of complement fixation by enzyme linked immunosorbent assay (COMPELISA)  FM HINCHLIFFE, L ROBERTSON 100
Use of the Phoenix system for bacteriology  JENNIFER PERRY, DA MITCHELL, JH DARRELL 104

An assessment of environmental contamination arising from the use of equipment for carrying out the ELISA technique in microtitre plates  CJ HARRER .......................................................... 110

Technical method

Haematoxylin counterstaining of immunofluorescence preparations  M CHILOSI, G PIZZOLI, C VINCENZI .......................................................... 114
Letters to the Editor .......................................................... 115
Book reviews .......................................................... 118

No 2 FEBRUARY 1983

Infections in British clinical laboratories 1980–81  NR GRIEST .......................................................... 121
Aerosols in the mortuary  SWB NEWSOM, CHRISTINE ROWLANDS, JULIE MATTHEWS, CJ ELLIOT .......................................................... 127

Pepsinogen in gastric carcinoma cells  WA REID, WD THOMPSON, J KAY .......................................................... 137

Nuclear diameter in parathyroid disease  SS BANERJEE, B BARFARER, PS HAALESTON .......................................................... 143

Studies of intestinal lymphoid tissue. VI—Proliferative response of small intestinal epithelial lymphocytes distinguishes gluten- from non-gluten-induced enteropathy  MN MARSH, MR HAENEY 149

A possible route for lymphocyte migration into diseased tissues  AJ FREEMONT .......................................................... 161

Production of a monoclonal antibody reactive with human dendritic reticulum cells and its use in the immunohistological analysis of lymphoid tissue  M NAHEM, J GERDES, Z ABDULAZIZ, H STEIN, BY MASON .......................................................... 167

A novel method for the assessment of cellularity in bone marrow fragments from bone marrow aspirates  R ABRAHAMS, B ABRAHAMS, R JABOUL .......................................................... 176

Comparison of haematological indices between women of four ethnic groups and the effect of oral contraceptives  IF GODLAND, MARY SEED, RUTH SIMPSON, G BROOM, V WYNN .......................................................... 180

Comparison of peripheral blood and Buffy coat smear examination for the prediction of bone marrow relapse of acute lymphoblastic leukaemia in childhood  IM FRANKLIN .......................................................... 192

"New" lectins for the identification of erythrocyte cryptantigens and the classification of erythrocytic polyagglutinability  MEDICAGO DISCOFORMIS AND MEDICAGO TURBINATA  RY WORTH, JUNE WINGHAM .......................................................... 195

Immunohistochemical localisation of thrombospodin in human megakaryocytes and platelets  KATHRYN M MCLAUGHLIN, J MUNRO, AG BECKETT .......................................................... 197

Low pancreatic lipase in insulin-dependent diabetics  D JUNGLE, R DE ALBARRAN, A KATRAK, DB FREEMAN, AG BECKETT, P DANDONA 200
Immunoperoxidase techniques: the deleterious effect of sodium azide on the activity of peroxidase conjugates TC RICHARDSON, DEBORAH V CHAPMAN, BADIE HEYDERMAN

Biochemical and histopathological studies on patients with mucopolysaccharidoses, two of whom had been treated by fibroblast transplantation JULIE CROW, DOBOTHY A GIBBS, WENDY COZENS, ELIZABETH SPELLACY, R.WE WATTS

Type III glycosgenosis presenting as liver disease in adults with atypical histological features IW FELLOWS, JS LOWE, AL OGLVIE, A STEVENS, PJ TOGHELL, M ATKINSON

Food-starch granulomatous peritonitis JD DAVIES, JD ANSELL

A novel immunoradiometric assay for human liver ferritin A AL-SHAWI, ANNE DAWNEY, J LONDON

Hypothosis: the aplastic crisis of hereditary spherocytosis is due to a single transmissible agent PP MORTIMER

Impairment of neutrophil chemotaxis by serum from patients with chronic lymphoproliferative disease U JAYASWAL, S ROPER, S ROATH

Demonstration of pathogenic bacteria in "sterile" inflammatory exudates RC BRIDGER

Prophylaxis for infective endocarditis: antibiotic sensitivity of dental plaque TW MACFARLANE, DA MCGOWAN, K HUNTER, D MACKENZIE

Grouping and detection of group B streptococci by immunofluorescence D CASTLE, JANE DLEYE, CSF EASMON

Counterimmunoelectrophoresis in the serodiagnosis of Legionnaires' disease MG HOLLIDAY

Significance and value of the Widal test in the diagnosis of typhoid fever in an endemic area T PANG, SD PUTHUCHERY

Minimal criteria for the identification of Gardnerella vaginalis isolated from the vagina JLS JOLLY

Contamination of specimen containers during sputum collection BW ALLEN, JH DARRELL

Technical method

A regenerative destruction period for the destruction of somatic adenosine triphosphate in urine specimens PC MCWALTER, CA SHARP, GE STERN

Letters to the Editor

Book reviews

Some new titles

Notice

No 5 MAY 1983

Middle Eastern intestinal lymphoma: a morphological and immunohistochemical study P ISAACS, HS AL-DEWACHI, DY MASON

Raised 5-hydroxytryptamine concentrations in enterochromaffin cells in adult coeliac disease LE NERBAK, C HALLERT, K NORBY

Benign mesenchymoma of the stomach MT HAQWIN, N KREMER, M ASHWORTH

Polyamines in colorectal carcinoma: a clinical and experimental approach RC RACH, JG BEELEY

Histology of rectal gonorrohea in men, with a note on anorectal infection with Neisseria meningitidis AC MCMILLAN, GC MONEILAGE, HM GILMOUR, FD LEE

Angiokeratoma developing around a foreign body J HAYMAN, HH HUGGENS

Muscle morphology and metabolism in hypothyroid myopathy: effects of treatment AA KHALEEL, G GOHIL, GC MCHALE, JN ROURD, RHT EDWARDS

Use of flexible plastic film isolators in performing potentially hazardous necropsies PC TREXLER, AM GILMOUR

Detection of immunoglobulins G and A on the cell membrane of hepatocytes from patients with alcoholic liver disease A TREVISAN, B CAVIGLIO, R MELICONI, GF STEFANINI, S ZOTTI, M RUGGE, F NOVENTA, C BETTERLE, G REALDI

Towards an automated procedure for the quantitative cytological screening of cervical neoplasms AM SINCOCK, J MIDDLETON, D MUCCHIETTI, D MONTICELLI

Transfer receptors in human tissues: their distribution and possible clinical relevance RC GATTER, G BROWN, J TROWBRIDGE, RITA-ELIZABETH WOOLSTON, DY MASON

Histopathology of the lung after bone marrow transplantation JP SLOANE, MH DEPLEDGE, RL POWLES, GR MORGENSTERN, BS TRICKER, PJ DADY

Membrane Fc-IgG and C3b receptors on myeloid leukaemia cells: a comparison with cytoplasmic acid naphthyl acetate esterase cytochemistry CS SCOTT, AG BYNGE, DC LINCH, C ALLEN, D HOGUE, BE ROBERTS

Lymphoma-like presentation of acute monocytic leukaemia BARBARA BAIN, A MANOHARAN, I LAMBERT, C MCKENZIE, D CATHY

Prevalence and distribution of ringed sideroblasts in primary myelodysplastic syndromes SK JUNEA, M IMBERT, F SIGAUD, H JOUAIL, C SULTAN

Preoperative antithrombin III activities and lipoprotein concentrations as predictors of venous thrombosis in patients with fracture of neck of femur JH WINTER, A FENCH, B BENNET, AS DOUGLAS

Freeze dried cryoprecipitate: a clinical evaluation HM HAMBLEY, JF DAVIDSON, TD WALKER, M SMALL, CRM FRENTICE

Incidence of infection with hepatitis B virus in 56 patients with haemophilia A 1971–1979 ML STIRLING, JA MURRAY, P MACKAY, SH BARKER, JE PELTHERER, CA LUDOL

Enzyme-linked immunosorbent assay (ELISA) for the detection of hepatitis B antigen and antibody: report of a field trial EM MARGARET SUPRAK, ELIZABETH H BOXALL, J CRASKE, JR HART, ELLIE M VANDERVELDE, PS GARDNER

Comparison of the effects of filtration leukapheresis and discontinuous flow centrifugation leukapheresis on granulocyte microbicidal function SM MARTIN, ATM GHONEIM, EAE ROBINSON, JA CHIL

A selective medium for Pasteurella multocida and its use with animal and human specimens DP KNIGHT, JANE E PAINE, DCE SPELLER

Comparative study of subculture, Gram staining and aeridine orange staining for early detection of positive blood cultures GM MASCAR, P BERTRAND, P MASCAR

Measurement of bilirubin, cholesterol and creatinine in serum and plasma, by solid-phase reflectance spectroscopy JF STEVENS, W TSANG, RG NEWALL

Technical method

Purification of Toxoplasma gondii from host cells RJ DAHL, AM JOHNSON

Myelofibrosis as a cause of pancytopenia in systemic lupus erythematosus HELEN M DALY, GL SCOTT ............................................................. 1219
Platelet peroxidase deficiency in a case of myelodysplastic syndrome with myelofibrosis MICHELE IMBERT, MARIE THERESE JARRY, MICHEL TULUEZ, JEANINE BRETON-GORUS ......................... 1223
Continuous opacity monitoring of the growth of bacteria under strict anaerobic conditions F O'GRADY, A ELEY ........................................ 1229
Use of gas-liquid chromatography as a screening test for toxigenic Clostridium difficile in diarrhoeal stools F PEPERSACK, M LABBE, C NONHOFF, E SCHOLTENS ........................................................................................................ 1232
Detection of a cytotoxin in the faeces of Campylobacter jejuni MAURA GOODLAND, JH JH TAYLOR, P KOLANDARAJAH, TS VADASSUDAN, PT GOONATILLAKE, RM TEN CATE, ANGELA BAVIER, GD NICOLL, R EASMON, NS RAY, JH JH TAYLOR .......................................................... 1237
An evaluation of gentamicin EIMIT—its performance on the Kem-O-Mat and its role in the small laboratory RG MASTERTON, RE TETTMAR, PW STRIKE, S WILLIAMS .................................................................................... 1239
Detection of antibodies against Legionella pneumophila serogroups 1 to 6 and the Leiden-I strain by micro ELISA and immunofluorescence assay P HERRBRINK, PL MEENHORST, DG GROOTHUIS, HVD MUNCHOF, R BAX, CILM MEIJER, J LINDEMAN ............................................................................................... 1246
Use of the direct haemolysis-in-gel test for rubella antibodies in the Icelandic prevention programme B EINARSDOTTIR, K BJARNADOTTIR, VM RATNAMOHAN, JPH DOWLING, GI BECKER, GA VARGOS .................................................................................. 1253
The exanthem of Ross River Virus infection: histology, location of virus antigen and nature of inflammatory infiltrate JRE FRASER, JF STEVENS, JDW JEFFERY, PA JAFFA ...................................................................................... 1256
Lactoferrin-deficient GERALDINE EINARSDOTTIR, MEIWIN GIBSON, ANDREW R GIBSON, DD KENNY ........................................................................ 1264
Microdeposits of amyloid in sclerocalcific heart disease MICHEL BRETON-GORIUS, PHEILIP E. GREENWOOD, RG GORDON, JAS STEWART, RD STOBART, B HOWELL .................................................................................................. 1267
A mechanised batch screening method for the detection of bacteriuria P KERKPOI, D MEGHIE, E CAHILL, T FOUNTAIN .......................................................... 1276
Bone marrow aluminium storage in renal failure M KAYE ......................................................................................................................... 1281
Histopathology reporting of BERRY, GD SORENSEN, TG ABBOT, RJ DUGHER ............................................................................................. 1288
Histopathology reporting of mastectomy specimens—an assessment of inter-hospital variation NLD VAN DER WALT, SIA BATHUN, GD SORENSEN, RJ BERRY ................................................................................... 1292
Liver membrane antibodies in alcoholic liver disease II. Antibodies to ethanol-altered hepatocytes RS ANTHONY, MJ HARRISON, RNM MACSWEEN ...................................................................................... 1298
A comparison of cellulose acetate immunofixation (CAIF) with polyacrylamide gel electrophoresis (PAGE) for the detection of oligoclonal bands in unconcentrated cerebrospinal fluid (CSF) FC GOODLAND, EJ THOMPSON ................................................................................................. 1302
Bone marrow aluminium storage in renal failure M KAYE ......................................................................................................................... 1281
Histopathology reporting of mastectomy specimens—an assessment of inter-hospital variation NLD VAN DER WALT, SIA BATHUN, GD SORENSEN, RJ BERRY ................................................................................... 1292
Liver membrane antibodies in alcoholic liver disease II. Antibodies to ethanol-altered hepatocytes RS ANTHONY, MJ HARRISON, RNM MACSWEEN ...................................................................................... 1298
A comparison of cellulose acetate immunofixation (CAIF) with polyacrylamide gel electrophoresis (PAGE) for the detection of oligoclonal bands in unconcentrated cerebrospinal fluid (CSF) FC GOODLAND, EJ THOMPSON ................................................................................................. 1302
Biochemical analysis of enzymic markers of inflammation in rectal biopsies from patients with ulcerative colitis and Crohn's disease C O'MORAIN, P SMITHERS, AJ LEVI, TJ PETERS .................................................................................. 1312
**Technical methods**

Colposcopic biopsies of the cervix G PHILIP, AH SPICER .......................................................... 1317
A mechanised batch screening method for the detection of bacteriuria P KERKPOI, D MEGHIE, E CAHILL, T FOUNTAIN .......................................................... 1276
Letters to the Editor ........................................................................................................................................................................ 1318
Notes ......................................................................................................................................................................................... 1319

**No 12 DECEMBER 1983**

**Review article**

Histomorphometry of bone PA REVELL ................................................................................................. 1323
Study of nuclear sizes in the centres of malignant and benign lymphoid follicles J CROCKER, BL JONES, RC CURRAN ...................................................................................... 1232
Subarachnoid haemorrhage due to upper cervical trauma WA HARLAND, JF PITTS, AA WATSON ................................................................................................. 1335
Microdeposits of amyloid in sclerocalcific heart valves: a histochimical and immunofluorescence study Y GOFIN, WENDY MURDOCH, GG CORNWELL, GD SORENSEN ...................................................................................... 1342
Immunofluorescent antibody necessary for the isolation of Campylobacter jejuni from human faeces DNB HUTCHISON, PJ BOLTON ............................................................................................. 1350
Detection of penicillin tolerance in streptococci GRET A SLATER, D GREENWOOD .................................................................................. 1353
Selective Kirchner medium in the culture of specimens other than sputum for mycobacteria DA MITCHEISON, BW ALLEN, D MANICKAVASAGAR ................................................................................................. 1357
Assessment of fat malabsorption TEH LIP BIN, M STOPARD, S ANDERSON, A GRANT, D QUANTRILL, RH WILKINSON, DP JEWELL ...................................................................................... 1362
Non-volatile fatty acids in the diagnosis of non-voluntary vaginitis CA ISON, CSF EASMON, SG DAWSON, G SOUTHERN, JHR HARRIS ...................................................................................... 1367
Measurement of the enzymes lactate dehydrogenase and creatine kinase using reflectance spectroscopy and reagent strips JF STEVENS, W TSANG, RG NEWALL ...................................................................................... 1377
Fibronectin in blood products—an in vitro and in vivo study JT REILLY, BA MCERRY, MJ MACKIE ............................................................................................. 1377
Effect of new plastics and leucocyte contamination on in vitro storage of platelet concentrates MA TAYLOR, NP TANDY, ID FRASER .................................................................................. 1387
No evidence for a prethrombotic state in stable chronic inflammatory bowel disease EAR KNOT, JW TEN CATE, O CH LEEKSMA, GN TYTGET, J VREEKEN .................................................................................. 1387
Identification of cellular immunoglobulins in chronic lymphocytic leukaemia by immunoperoxidase staining GERALDINE M MARKEY, RE MCCONNELL, HD ALEXANDER, TCN MORGES, JH ROBERTSON ............................................................................................. 1391
Lactoferrin-deficient neutrophil polymorphonuclear leucocytes in leukaemias: a semiquantitative and ultrastructural cytochemical study JUN MIYAMOTO, Y WATANABE, Y ENOMOTO, KEI TAKEUCHI .................................................................................. 1397

**Technical methods**

Revitalising postmortem coronary angiography SB COGHILL, SM NICOLL, A MCKIMMIE, I HOUSTON, BM MATTHEW ............................................................................................. 1406
A simplified hot-wire cutting aid for PVC trays used in radioimmunoassay A ANDERSON, G FLEMING, CD INSKIP, GK SCOTT ...................................................................................... 1412
Letters to the Editor ........................................................................................................................................................................ 1417
Book reviews ........................................................................................................................................................................ 1417
Notes ......................................................................................................................................................................................... 1418
List of Assessors .................................................................................................................................................................... 1419
Annual Author Index to Volume 36 .................................................................................................................................................. 1423
Annual Subject Index to Volume 36 .................................................................................................................................................. 1423
Annual Contents to Volume 36 .................................................................................................................................................. 1435
