Information for Authors

Papers should be sent in duplicate to the Editors, *Journal of Clinical Pathology*, BMJ Publishing Group, BMA House, Tavistock Square, London WC1H 9JR. Telephone numbers: 071 383 6209/6214. Fax number: 071 383 6668. They should be typewritten with double spacing on one side of the paper only. The names of the authors with initials or one forename should be followed by the name of the institution where the work was performed. An indication of the position held by each author must be given in an accompanying letter to the Editors, and this should include the signatures of all authors on papers with joint authorship. Guidelines on authorship are detailed in *J Clin Pathol* 1986;39:110. Results should not be shown as both tables and graphs, and histograms should not be used where tabular information would be more appropriate.

ARTICLES Papers should usually be no more than 2000 words long and should report original research of relevance to the understanding and practice of clinical pathology. They should be written in the standard format with a structured abstract. The abstract should contain the headings *Aims, Methods, Results and Conclusions* and be no more than 300 words long. The body of the paper should have separate sections for the introduction, the methods and the results, and the discussion. If statistics are used the methods and confidence intervals should be stated. Authors are urged to seek expert advice if in doubt. Occasional Articles have a less rigid format, being 1500-2000 words in length. They are usually invited by the editors, though unsolicited submissions will be considered. Single case reports and brief papers (such as those describing negative findings) will usually be considered only as Short Reports. The format for these is an unstructured 150 word summary, up to 1500 words of text, up to two tables or figures (or one of each) and no more than 10 references. Letters to the Editor should normally refer to previously published papers or make some point about the practice of pathology. They are not intended to be a vehicle for the presentation of new data unrelated to earlier Journal articles.

ACKNOWLEDGMENT OF RECEIPT A stamped addressed postcard should be enclosed for return to the author as acknowledgment of receipt of the manuscript. Overseas authors should enclose international reply paid coupons.

ETHICS The critical assessment of papers submitted will include ethical considerations.

ILLUSTRATIONS Diagrams should be reproduced photographically. The legends for illustrations should be typed with double spacing on a separate sheet. Photographs and photomicrographs must be of high quality in full tonal scale on glossy paper, and unmounted. Only salient detail should be included. Areas without tissue ("background") should be as near white as possible. The width of illustrations should be 6.7 cm, 10.2 cm, 13.7 cm or, in exceptional circumstances, 17.4 cm, to fit the column layout of

the Journal. Colour reproduction is welcomed and is subsidised by the Journal; for details of costs to the author please contact the Journal office.

ABBREVIATIONS Abbreviations must be spelt out on first use or be accompanied by explanation in the text. The use of non-standard abbreviations and acronyms should be avoided. Symbols and abbreviations should be in the Vancouver style.

UNITS All measurements should be given in SI units.

REFERENCES The references must be given in the Vancouver style.

REPRINTS These may be ordered when the proof is returned. Prices for large numbers of reprints available on request.

NOTICE TO ADVERTISERS Applications for advertisement space and for rates should be addressed to the Advertisement Manager, *Journal of Clinical Pathology*, BMJ Publishing Group, BMA House, Tavistock Square, London WC1H 9JR.

The *Journal of Clinical Pathology* is published monthly. The annual subscription rates are £188.00; USA \$341.00. Orders should be sent to The Subscription Manager, *Journal of Clinical Pathology*, BMJ Publishing Group, BMA House, Tavistock Square, London WC1H 9JR. Subscribers may pay for their subscriptions by Access, Visa, or American Express, by quoting on their order the credit or charge card preferred, together with the appropriate personal account number and expiry date of the card. Orders can also be placed with any leading subscription agent or bookseller. (For the convenience of readers in the USA subscription orders, with or without payment, may also be sent to the *British Medical Journal*, Box 560B, Kennebunkport, Maine 04046, USA. All enquiries, however, must be addressed to the publisher in London.) All enquiries regarding air mail rates and single copies already published should be addressed to the publisher in London.

Area Network such as the Internet or CompuServe, users will be able to harness the power of the pathology information explosion effortlessly and focus it precisely on the generation of their reports.

The project is still recruiting and so any pathologist in the UK or elsewhere who is interested in contributing, is welcome to contact the author by post or E-mail (CompuServe 100255,2131).

I read with interest the paper by . . .

In his letter¹ dealing with letters that begin "I read with interest the paper by . . ." (IRWITPB) Dr O'Brien should have addressed the authors' reply that so frequently starts, "We thank Bloggs for his/her interest in our paper" (WTBFHIIOP). What the authors of such letters probably mean is, "Trust Bloggs to point out that he/she published a larger series than ours 10 years ago" or "Damn Bloggs for noticing that our p values are out by a factor of 10".

Over the years, I have noticed that it is uncommon for writers of WTBFHIIOP letters ever to admit honestly their mistakes even when these are pointed out to them in unambiguous terms, preferring to deny, obfuscate, or side-step their errors. Perhaps the problem lies with the fact that letters and authors' replies are not subject to peer review, merely to the perfunctory scrutiny of an over-worked editor. Perhaps that is how this one got through or am I to expect an ITWFHIIML reply?

Briançon Congrès of Dermatopathology

6-10 February 1995

Parc Hotel, Briançon, France

The programme includes slide seminars in dermatopathology as well as case presentations and discussions. Seminars will be given by Dr Jeanine Wéchsler of Paris and Dr Lorenzo Cerroni of Graz. Other seminars will be given by British pathologists. Delegates may also submit cases for presentation and discussion. In addition to interesting and difficult cases there will be a special prize for "The Best Mistake" presented in the special session devoted to this interesting phenomenon in diagnostic histopathology. The week will be suitable for 20 cognate points for CME. This meeting offers an opportunity to meet in the pleasant atmosphere of "the highest fortified town in Europe", in the sunny southern Alps. Delegates will attend from many countries in Europe.

Apply to: Dr N Kirkham, P.O. Box 334, Histopathology Department, Royal Sussex County Hospital, Brighton BN2 5BG. Tel: 0273 664501. Fax: 0273 600182 or Dr J-H Oddou, B.P. 8, 05000 Gap, France. Fax: (33) 92 51 92 55.

Postgraduate course in gynecologic and obstetric pathology with clinical correlation

March 27-31 1995

The Departments of Pathology, Massachusetts General Hospital and Brigham and Women's Hospital, Harvard Medical School will present a postgraduate course in Gynecologic and Obstetric Pathology under the direction of Drs Robert E Scully, Robert H Young, and Christopher P Crum, to be held at the Four Seasons Hotel, Boston.

This course is designed for pathologists and obstetricians/gynecologists at resident and practitioner levels. It will provide an in-depth review of gynecologic and obstetric pathology with emphasis on morphologic diagnostic features and clinicopathologic correlation including management. Special attention will be paid to recent advances and newly recognised entities. Instruction will be primarily by lecture, but will also include case presentations and discussion periods. Each participant will receive a comprehensive course syllabus.

The course has Category 1 accreditation for approximately 35 hours CME credit by the American Medical Association and 35 cognates, formal learning, by the American College of Obstetricians and Gynecologists. The fee for the course is \$775.00 (residents and fellows \$600.00). For further information, please contact: Department of Continuing Education, Harvard Medical School, 25 Shattuck Street, Boston, MA 02115 (Tel: 617 432 1525; fax 617 432 1562).

Melanoma

10-12 May 1995

Conference Centre, Brighton, UK

The *Melanoma Study Group* are holding a three day multidisciplinary conference on all aspects of melanoma diagnosis and treatment. The programme includes slide seminars given by a number of experts in the field. A wide range of biopsy material will be available for examination. Abstracts for oral or poster presentation and biopsy cases for discussion are invited. The conference will be suitable for 15 cognate points for CME and takes place during the Brighton International Festival.

Apply to: Dr N Kirkham, P.O. Box 334, Histopathology Department, Royal Sussex County Hospital, Brighton BN2 5BG. Tel: 0273 664501. Fax: 0273 600182.

Correction

In the October issue of the journal a printing error occurred in the paper by Ohsawa M, Kanno H, Machii T, Aozasa K (*J Clin Pathol* 1994;47:928-932). Figure 1 was labelled incorrectly as (A), (B), (A) but should read (A), (B), (C). The correct version of fig 1C is reproduced here.

Figure 1 Monocytoid cells near the sheath artery of the spleen (A) haematoxylin and eosin. Monocytoid cells showing a positive reaction for CD20 (B), but not for DBA.44 (C) (ABC method).

(C)
