

Host-Virus Reactions with Special Reference to Persistent Agents

Symposium organized by
The Royal College of Pathologists
delivered in London in February 1972
and published in December

Edited by
George Dick

Published for The Royal College of Pathologists by the
Journal of Clinical Pathology, BMA House, Tavistock Square,
London WC1H 9JR England

£2.00

Cell cultures as models for viral infection *in vivo*, 2
— — mediated immunity and virus infections, 123
— — immunopathology and virus infections, 125
Cells, normal, transformation by EB virus, 54
Choriomeningitis, lymphocytic, 124
— — —, virus of, persistent infection of mouse with, 8
CONNOLLY, J. H.: Subacute sclerosing panencephalitis, 73
COSSART, Y. E.: Serum hepatitis as a persistent infection, 22
Creutzfeldt-Jakob disease, 97
— — —, ataxic type of, 100
— — —, diffuse type of, 100
— — —, Heidenhain type of, 99
— — —, isolation and characterization of, 89
— — —, Jakob type of, 99
— — —, virus of, 78
Cytomegalovirus as cause of persistent latent infection, 34
— infections, 129
— — —, transmission of, 35

DANIEL, P. M.: Creutzfeldt-Jakob disease, 97
Dementia, pre-senile, transmissible. See Creutzfeldt-Jakob disease

EB viral nucleic acid in tumours, 53
— virus-determined antigens in tumours, 51
— — — — —, antibodies to, in infectious mononucleosis, 59
— — — — —, — — —, in tumours, 54
— — in relation to infectious mononucleosis, 58
— — — — — tumours, 51
— — —, induction of tumours in non-human primates by, 54
— — particles in tumours, 51
— — —, response to infection with, 61
— — —, role in human malignancies, 56
— — —, transformation of normal cells by, 54
Encephalopathies, postinfectious, 144
— — — — —, virus of, 78
— — — — —, isolation and characterization of, 84
Encephalopathy, mink, transmissible, comparison with scrapie, 106
— — — — —, in mice and goats, 104
— — — — —, pathogenesis and nature of agent, 102
— — — — —, virus of, 78
— — — — —, infectious anaemia, 127
