Editorial

Clinical application of serum vitamin

B₁₂ assay

M ROSE *pages* 341-342

Chemotherapy sensitivity testing in human tumours

HG RICHMOND AND RW BILLINGTON
pages 343-350

Use of an improved *E. coli* method for the measurement of cobalamin in serum: comparison with the *E. gracilis* assay results
NA SOURIAL *pages* 351-356

Comparison of serum vitamin B₁₂ estimation by saturation analysis with intrinsic factor and with R-protein as binding agents
REA ZACHARAKIS, M MUIR, AND I CHANARIN
pages 357-360

Urinary excretion kinetics of hydroxyethyl starch 350/0-60 in normovolaemic man
JM MISHLER, CR RICKETTS, AND EJ PARKHOUSE
pages 361-365

Defective neutrophil function in low-birth-weight, premature infants
H AL-HADITHY, IE ADDISON, AH GOLDSTONE, JC CAWLEY, AND JC SHAW *pages* 366-370

Effect of leukaemia therapy on neutrophil chemotaxis
EILEEN N THOMPSON AND SARAB-AL-NAKEEB
pages 371-376

Spleen function and platelet kinetics
I KLONIZAKIS, AM PETERS, ML FITZPATRICK, MJ KENSETT, SM LEWIS, AND JP LAVENDER
pages 377-380

Plasma cell counts of human jejunal biopsy specimens examined by immunofluorescence and immunoperoxidase techniques: a comparative study
D KINGSTON, JR PEARSON, AND FJ PENNA
pages 381-385

Jejunal mucosal morphometry in children with and without gut symptoms and in normal adults
FJ PENNA, ID HILL, D KINGSTON, K ROBERTSON, G SLAVIN, AND M SHINER
pages 386-392

Bromine and selenium in human aorta
JD CROSS, RM RAIE, AND H SMITH *pages* 393-395

Nephelometry v differential agglutination titre in the measurement of rheumatoid factors
MH PRITCHARD AND K JOBBINS *pages* 396-399

Prevalence and persistence of C1q binding activity in healthy subjects
SHEENA M WALKER AND SABAH F AL KHATEEB
pages 400-403

ISSN 0021-9746

Extrapulmonary tuberculosis: a potential source of laboratory-acquired infection
BW ALLEN AND JH DARRELL *pages* 404-407

Viral hepatitis in Danish health care personnel, 1974-78
P SKINHØJ AND M SØEBY *pages* 408-411

Observations on 10 years' HBs antigenaemia after renal transplantation
J NAGINGTON *pages* 412-413

Antitoxin production in antibiotic-associated colitis?
AH LISHMAN, IJ AL-JUMAILI, AND CO RECORD
pages 414-415

IgG antibodies against anaerobic bacteria in blood donor sera
ANNA SCHWAN *pages* 416-419

A rapid slide coagglutination test—an alternative to the fluorescent antibody test for the identification of *Neisseria gonorrhoeae*
S SHANKER, DA DALEY, AND TC SORRELL
pages 420-423

Characterisation of urinary isolates of *Escherichia coli* by multiple typing: a retrospective analysis
MARGARET I WILSON, PAMELA B CRICHTON, AND DC OLD *pages* 424-428

Flavobacterium meningosepticum infection: an epidemiological study in a newborn nursery
ML THONG, SD PUTHUCHEARY, AND EL LEE
pages 429-433

Spontaneous loss and transfer of plasmid-mediated K21 antigen synthesis in *Klebsiella pneumoniae*
JG BARR *pages* 434-438

Resistance to trimethoprim in 1978-79 compared with 1973-75
JMT HAMILTON-MILLER, ANN GOODING, AND W BRUMFITT *pages* 439-442

Clinical distribution and antibiotic sensitivity of staphylococcal strains isolated over an eight-month period
PE VARALDO, O SORO, G GRAZI, AND F BIAVASCO *pages* 443-447

Technical methods

Use of 3,3',5,5'-tetramethylbenzidine (TMB) in the identification of erythroid colonies
MAURA REYNOLDS, EMER LAWLOR, SHAUN R MCCANN, AND IJ TEMPERLEY *pages* 448-449

An automated method for recording the Westergren erythrocyte sedimentation rate
JF KING, K KENNEDY, AND AR RIMMER
pages 449-452

Letter to the Editor *page* 452

Book reviews *pages* 452-454

Notices *page* 454

ASTM CODEN:JCPAAK 34(4) 341-454 (1981)
