Papers

- 759 Alveolar rhabdomyosarcoma infiltrating bone marrow at presentation: the value to diagnosis of bone marrow trephine biopsy specimens *M M Reid, P W G Saunders, N Bown, et al*
 763 Use of paraffin wax embedded bone marrow trephine biopsy specimens as a source of archival DNA *A B Provan, E Hodges, A G Smith, J L Smith*
 766 Increased interleukin 6 concentrations in the absence and presence of HIV-1 infection in haemophilia *R Madhok, A Cruickshank, A J Gracie, A Shenkin, G D O Lowe*
 770 Improved PCR method for detecting monoclonal immunoglobulin heavy chain rearrangement in B cell neoplasms *I Ramasamy, M Brisco, A Morley*
 776 α -1 antitrypsin gene exon use in stimulated lymphocytes *M S Bashir, K Morrison, D H Wright, D B Jones*
 781 Antibodies to choroid plexus in senile dementia of Alzheimer's type *J M Serot, M C Béné, B Gobert, D Christmann, B Leheup, G C Faure*
 784 Collagenous colitis: Jejunal and colorectal pathology *J Armes, D C Gee, F A Macrae, W Schroeder, P S Bhathal*
 788 Human herpes virus 6 and endogenous biotin in salivary glands *M Green, L Sviland, C E Taylor, et al*
 791 Immunohistological study of intrahepatic expression of hepatitis B core and E antigens in chronic type B hepatitis *C M Chu, Y F Liaw*
 796 Quantitative assessment of histological changes in chronic gastritis after eradication of *Helicobacter pylori* *A Di Napoli, R Petrino, M Boero, D Bellis, L Chiandussi*
 799 Lethal synergistic action of toxins of bacteria isolated from sudden infant death syndrome *D B Drucker, H S Aluyi, J A Morris, D R Telford, A Gibbs*
 802 Possibility of separating toxins from bacteria associated with sudden infant death syndrome using anion exchange chromatography *D B Drucker, H A Aluyi, J A Morris, D R Telford, B A Oppenheim, B A Crawley*
 806 Fungal infections of the small and large intestine *R J Prescott, M Harris, S S Banerjee*
 812 New selective medium for isolating *Clostridium difficile* from faeces *S T Aspinall, D N Hutchinson*
 816 Comparison of Sentinel and Bactec blood culture systems *M Stevens, H Patel, A Walters, et al*
 819 Plasma total thyroxine and free thyroxine concentrations in congenital hypothyroidism before and during treatment *S L Tillotson, D B Grant, A E Ades*

Short reports

- 821 *Nocardia* infection in AIDS: a clinical and microbiological challenge *R J Coker, G Bignardi, P Horner, et al*
 823 Sarcoidosis: Association with small bowel disease and folate deficiency *S M MacRury, G McQuaker, R Morton, R Hume*
 825 Immunoperoxidase techniques and histology in the diagnosis of rhabdomyolysis related acute renal failure *P N Cooper, J Tapson, A R Morley*
 828 Gonadoblastoma and fertility *Y Erhan, A S Toprak, N Özdemir, B Tiras*
 830 Bone marrow necrosis at transformation of chronic granulocytic leukaemia treated with interferon *J R Kendra, S Pickens, K Singh*
 832 Systemic amyloidosis of β_2 microglobulin type *K Mazanec, J McClure, C J Bartley, M J Newbould, P Ackrill*
 834 Histological reclassification of 101 intraoral salivary gland tumours (new WHO classification) *J E van der Wal, G B Snow, I van der Waal*
 836 New enzyme immunoassay for detecting cryptococcal antigen *F R Knight*
 838 Selective criteria for the microbiological examination of faecal specimens *R A Bowman, J M Bowman, S A Arrow, T V Riley*
 840 Diffuse axonal injury caused by assault *D I Graham, J C Clark, J H Adams, T A Gennarelli*
