

# Journal of Clinical Pathology

Cover legend: A complex adnexal tumors of the skin (CATS) showing a mixture of a proliferating pilar tumor (PPT) and syringocystadenoma papilliferum (SCAP). The glandular component is composed of glands that are lined by tall columnar cells with decapitated secretions, multiple intraluminal infoldings and pink homogenous secretions in their lumina. From London *et al*, see page 819.
