

TISSUE AND ORGAN TRANSPLANTATION

The Proceedings of a Symposium organised by the College of Pathologists

CONTENTS

Genetic background and transplantation antigens · Action of lymphocytes in transplantation · The role of the macrophage in transplantation immunity · Humoral and cell-mediated effector mechanisms in tissue transplantation · Immunological tolerance · The response of draining lymph nodes to immunological stimulation in intact and thymectomized animals · Immunological properties of antilymphocyte serum · Immunosuppressive agents and allogeneic transplantation · Immunosuppressive action of ribonucleases · The relevance of leucocyte antigens for allogeneic renal transplantation · The transplantation of cartilage · Rejection in treated renal allografts · Grafts of haemopoietic tissue: the nature of haemopoietic stem cells · Bone transplantation

PRICE 30s. (U.S.A. \$4.50) including postage

THE THYROID GLAND

The Proceedings of a Symposium organised by the Association of Clinical Pathologists

CONTENTS

The structure of the thyroid gland · The biosynthesis of thyroid hormones · The action of thyroid hormones · The control of thyroid secretion · The radioimmunoassay of thyroid-stimulating hormone in human blood · Carriage of circulating thyroid hormones and the estimation of total plasma hormone levels · The estimation of thyroid hormone binding by plasma proteins and of unbound levels of thyroxine in plasma · The value of inorganic iodine studies in the clinical assessment of thyroid disease · Stimulation and suppression tests of thyroid function · Tests based on the peripheral action of thyroid hormone · Aetiology of hyperthyroidism · The diagnosis of hyperthyroidism · Hypothyroidism · Hypothyroidism due to congenital dysmorphogenesis · Thyroid autoimmune disease · Extrathyroidal thyroglobulin · Medullary carcinoma of the thyroid · Thyrocalcitonin

PRICE 30s. (U.S.A. \$4.50) including postage
