

# Journal of Clinical Pathology

British Medical Association, Tavistock Square, London WC1H 9JR

## Contents Vol. 24, No. 6, September 1971

Simplified organ cultures of human embryo trachea in the diagnosis of viral respiratory disease of children

A. P. C. H. ROOME, VALERIE DICKINSON, AND E. O. CAUL *page 487*

Observations on *Aeromonas hydrophila* septicaemia in a patient with leukaemia

E. ABRAMS, C. H. ZIERDT, AND J. A. BROWN *page 491*

Colorimetric determination of serum acid phosphatase activity using adenosine 3'-monophosphate as substrate

GRAHAM ELLIS, ALAN BELFIELD, AND DAVID M. GOLDBERG *page 493*

Use of peroxidase-conjugated antiglobulin as an alternative to immunofluorescence for the detection of antinuclear factor in serum

J. DORLING, G. D. JOHNSON, JANET A. WEBB, AND MAVIS E. SMITH *page 501*

Use of unabsorbed radioactive marker substances in a re-assessment of the radioactive triolein test of fat absorption

R. K. DITCHBURN, A. H. SMITH, AND C. J. HAYTER *page 506*

Bisalbuminaemia in a Spanish family: characterization of the albumin variant

J. M. IZQUIERDO, PILAR SOTORRÍO, B. DOWDING, AND A. L. TÁRNOKY *page 515*

2,3-Diphosphoglycerate in acute asthma

P. J. GALLAGHER *page 518*

Ultrastructure of a glomus tumour

M. HARRIS *page 520*

Lymphangiosarcoma arising in chronic congenital and idiopathic lymphoedema

D. H. MACKENZIE *page 524*

Haemangiosarcoma of breast

E. KESSLER AND I. L. KOZENITZKY *page 530*

A micro-method for peripheral leucocyte migration in tuberculin sensitivity

K. FEDERLIN, R. N. MAINI, A. S. RUSSELL, AND D. C. DUMONDE *page 533*

Phenacetin-induced haemolytic anaemia

R. J. L. DAVIDSON *page 537*

Laboratory control of heparin therapy

M. J. O'SHEA, P. T. FLUTE, AND G. M. PANNELL *page 542*

Single-sample diagnosis of recent rubella by fractionation of antibody on Sephadex G-200 column

J. D. GUPTA, V. PETERSON, MARILYN STOUT, AND A. M. MURPHY *page 547*

Manpower in pathology 1969-1975

C. L. GREENBURY *page 551*

Technology of a regional Guthrie test service

R. L. NEWMAN AND D. J. T. STARR *page 564*

### Technical methods

Estimation of blood phenylalanine from a dried blood spot using the Guthrie test  
LEMAG WORKING PARTY *page 576*

A rapid silver impregnation technique for oligodendrocytes, microglia, and astrocytes  
T. SCOTT *page 578*

A rapid method for the detection of ferritin in serum

M. R. BEAMISH, P. LLEWELLIN, AND A. JACOBSON *page 581*

Book reviews *page 583*
