

The Pathology of Pregnancy

Symposium organized by
The Royal College of Pathologists
delivered in London in February 1976

Edited by
ROSALINDE HURLEY

Published for The Royal College of Pathologists by the
Journal of Clinical Pathology, BMA House, Tavistock Square
London WC1H 9JR England

£5.00

*The Journal of Clinical Pathology is published monthly
by the British Medical Association, from BMA House,
Tavistock Square, London WC1H 9JR*

Index

- Abnormalities, congenital, **145-176**
ABO blood group system, 132
— — — — — and trophoblastic disease, 137, 142
- Abortion, 39
— and histocompatibility, 133
—, hydropic, 113
—, septic, and mycoplasmal infections, 97
— spontaneous, 13
—, —, and mycoplasmal infections, 96
- Abruptio placentae, 38
- Acid-base balance, fetal, 32
- Acidosis, 31
—, infusion, 33
- Adrenal lesions in eclampsia, 66
- Alcohol, teratogenic risks with, 154
- Alkaline phosphatase, heat-stable, 22
— — — placental isoenzyme, 140
- Alphafetoprotein, 22
— and neural tube defects, **157**
—, characteristics of, 157
— in amniotic fluid and prenatal diagnosis of NTD, 158
— in maternal blood in screening for NTD, 161
— in trophoblastic tumours, 140
- Amniocentesis, 165, 172, 173, 175
- Amniotic fluid AFP and prenatal diagnosis of neural tube defects, 158
— — — and bacterial growth, 107
— — — embolism, 39
— — —, loss or failure of formation, 28
— — — parameters other than AFP in prenatal diagnosis of NTD, 161
— — — surfactant estimations and neonatal respiratory distress, 57
— — — volume measurements in Rhesus haemolytic disease, 56
- Anaemia, sickle-cell. *See* Sickle-cell anaemia
- Anencephaly, 157
- Antibody protein measurements and acute fetal haemolysis, 56
- Anticoagulant therapy during pregnancy, 39
- Antiepileptic treatment, teratogenic risks with, 152
- Arteries, uteroplacental, in abnormal pregnancy, 12
—, —, in normal pregnancy, 9
- Artery thrombosis, fetal, 1
- Asphyxia, fetal, 31
- Bacteraemia, neonatal, 108
- Bacterial infection, acquisition by fetus in pregnancy and labour, **107**
- Bacteriuria in pregnant women, 107
- BAGSHAW, K. D.: Endocrinology and treatment of trophoblastic tumours, **140**
- Barbiturates, teratogenic risks with, 154
- BEILIN, L. J. *See* REDMAN, C. W. G., BEILIN, L. J., and BONNAR, J.
- Birth weight, low, and mycoplasmal infections, 96
- Blood sampling, fetal. *See* Fetal blood sampling
— vessels, systemic effect of pregnancy on, 16
— — —, uteroplacental, 9
- BOBROW, M.: Genetic counselling: a tool for the prevention of some abnormal pregnancies, **145**
- BONNAR, J.: Coagulation disorders, **35**
— *See also* REDMAN, C. W. G., BEILIN, L. J., and BONNAR, J.
- Brain lesions in eclampsia, 64
— metastases in trophoblastic tumours, 141, 142, 143
- BROCK, D. J. H.: Alphafetoprotein and neural tube defects, **157**
- Calcification, placental, 3
- Carcinoembryonic antigen, 22
- Cellular reaction in choriocarcinoma, 137
— — — studies in trophoblastic disease, 127
- Chorioamnionitis, 5, 108
- Choriocarcinoma, 121
— after hydatidiform mole, 114, 115
— and ABO system, 137
— and HLA system, 134, 135, 136
—, cellular reaction in, 137
—, diagnosis in trophoblasts in uterine curettings, 125
—, endocrinology and treatment of, 140, 141, 142
- Chromosomal translocations, 167, 175
- Chromosome aberrations, fetal. *See* Fetal chromosome aberrations
- Coagulation and fibrinolysis during normal pregnancy, 35
— — —, dynamic equilibrium between, 70
— — —, histological demonstration of, 70
— defects, acute, in obstetrics, 37
— disorders, **35**
—, intravascular, and fetus, 74
—, —, and normal pregnancy, 36
—, —, histological demonstration of, 72
—, —, in pregnancy, aetiology, 72
—, —, —, effects, 74
— system, 35
- Congenital abnormalities, **145-176**
- Cystine aminopeptidase, 22
- Cytomegalovirus infection, congenital, 102
- DAVIES, P. A.: The acquisition by the fetus of bacterial infection in pregnancy and labour, **107**
- Down's syndrome, 167, 169, 171, 172, 174
- DUDGEON, J. A.: Viral infections, **99**
- Eclampsia, fibrin deposition in, 72
- Eclamptic lesions, anatomy of, 67
— — —, histology of, 63
- ELSTON, C. W.: The histopathology of trophoblastic tumours, **111**
- Enteroviruses, 105
- Enzymes, placental, 22
- FERGUSON-SMITH, M. A., and FERGUSON-SMITH, M. E.: Screening for fetal chromosome aberrations in early pregnancy, **165**
- Fertility and histocompatibility, 132
- Fetal acid-base balance, 32
— blood sampling and gas exchange, **31**
— — — in clinical practice, 33
— — —, rationale of, 31
— — —, technique of, 32
— chromosome aberrations, screening for, in early pregnancy, **165**
— — —, — — —, indications for, 174
— — —, — — —, materials and methods, 165
— — —, — — —, results of, 166
— — —, — — —, risks with amniocentesis in, 173
— — —, — — —, time for diagnosis in, 173
— deprivation, placental pathology in, 1
— growth and placental size, 3
— retardation, uteroplacental arteries in, 13
— haemolysis, acute, and antibody protein measurements, 56

- lung, effects of placental insufficiency, 27
- —, maturation, prenatal induction of, 29
- —, normal development of, 27
- —, — — —, and possible mechanisms for growth failure, 29
- — perfusion, deficient, 4
- — proteins, specific, 22
- — sexing, 169, 175
- Fetoplacental function, 1-34**
- — —, assessment by biochemical determinations, 18
- — —, biochemical tests of, clinical evaluation, 19
- — —, — — — —, specific types, 21
- — products, 18
- — synthesis, 18
- Fetus, acquisition of bacterial infection in pregnancy and labour, 107**
- — and intravascular coagulation, 74
- —, immunological development of, 107
- Fibrin deposition in pregnancy, 70, 72**
- — —, perivillous, 1
- — /fibrinogen degradation products and soluble complexes, 36
- Fibrinolysis and coagulation during normal pregnancy, 35**
- — — —, dynamic equilibrium between, 70
- — — —, histological demonstration of, 70
- Fibrinolytic enzyme system, 35**
- FOX, H.:** The histopathology of placental insufficiency, 1
- Gas exchange and fetal blood sampling, 31**
- Genetic counselling and prevention of abnormal pregnancies, 145**
- — —, efficacy of, 148
- — —, techniques of, 146
- — information, communication to patients, 146
- — risks, estimation of, 146
- Genetically determined disorders, frequency of, 145**
- Genetics, medical, scope of, 145**
