

Journal of Clinical Pathology

British Medical Association, Tavistock Square, London WC1H 9JR

Contents Vol. 30, No. 7, July 1977

Strains of *Achromobacter xylosoxidans* from clinical material

B. HOLMES, J. J. S. SNELL, AND S. P. LAPAGE
pages 595-601

Lack of evidence for mutation to erythromycin resistance in clinical strains of *Staphylococcus aureus*

R. W. LACEY pages 602-605

Comparison of coagulase, deoxyribonuclease (DNase) and heat-stable nuclease tests for identification of *Staphylococcus aureus*

ROSALIE E. MENZIES pages 606-608

Recovery of anaerobic bacteria from small inocula: a model for blood culture studies

J. G. COLLEE, B. I. DUERDEN, AND R. BROWN
pages 609-614

Multiplication of contaminant bacteria in urine and interpretation of delayed culture

D. B. WHELDON AND MARY SLACK pages 615-619

Novobiocin and the differentiation of peptococci and peptostreptococci

M. W. D. WREN, C. P. ELTON, AND G. H. DAKIN
pages 620-622

Simplified method for the rubella haemagglutination inhibition screening test

P. P. MORTIMER, SUSAN M. JORDAN, AND I. V. SMITH pages 623-625

Comparison between the automated reagin test and reagin screen test methods of VDRL screening tests for syphilis in use in a routine laboratory

ROSEMARY D. SIMON AND ALAN M. PEACOCK
pages 626-629

Hydroxyproline excretion in infantile gastroenteritis

R. H. J. BEGENT AND H. P. LAMBERT pages 630-634

Comparison of thyroid stimulating hormone and triiodothyronine response to thyrotrophin releasing hormone in the assessment of thyroid status

C. R. SQUIRE AND T. M. D. GIMLETTE pages 635-637

The erroneous haemoglobin-hyperlipidaemia relationship

P. D. NICHOLLS pages 638-640

West Midlands regional quality control scheme for haematology

I. D. O. FREW, T. W. ROOME, AND B. ASHMAN
pages 641-644

Measurement of serum folate: experience with ⁷⁵Se-selenofolate radioassay

IAN JOHNSON, HUGH GUILFORD, AND MICHAEL ROSE pages 645-648

Platelet adhesiveness in young patients with ischaemic stroke

SUBHASH C. SHARMA, G. P. VIJAYAN, M. L. SURI, AND H. N. SETH pages 649-652

Cytochemical reactions of normal and neoplastic lymphocytes

F. R. DAVEY, S. J. HUNTINGTON, J. MACCALLUM, AND J. M. MACMATH pages 653-660

Alveolar rhabdomyosarcoma presenting as subacute intravascular coagulation

A. ELDOR, ELLA NAPARSTEK, J. H. BOSS, AND SHOSHANA BIRAN pages 661-665

Reaction of human smooth muscle autoantibody with gastric parietal cells: a pitfall in the diagnosis of parietal cell autoantibody

R. CEREDIG AND B. H. TOH pages 666-670

HB_sAg and HB_cAg in the livers of asymptomatic hepatitis B antigen carriers

E. TAPP AND D. M. JONES pages 671-677

Two cases of alpha chain disease from Nigeria

J. T. WHICHER, A. AJDUKIEWICZ, AND J. D. DAVIES

pages 678-681

Technical method

Application of the Papanicolaou stain to routine histological examination of placenta

D. DIFRUSCIO AND D. J. DESA pages 682-683

Letters to the Editor pages 683-684

Book reviews pages 685-686
