

Contents Vol. 31, No. 10, October 1978

Isolation of *Staphylococcus aureus* from sputum in cystic fibrosis

P. D. SPARHAM, D. I. LOBBAN, AND D. C. E. SPELLER *pages* 913-918

Transient skin flora

H. A. LILLY AND E. J. L. LOWBURY *pages* 919-922

A test for 'hygienic' hand disinfection

G. A. J. AYLIFFE, J. R. BABB, AND A. H. QUORAISHI *pages* 923-928

Sensitivity of urine-grown cells of *Providencia stuartii* to antiseptics

B. THOMAS, L. SYKES, AND D. J. STICKLER *pages* 929-932

Incomplete anaerobiosis as a cause of metronidazole 'resistance'

SHELAGH E. MILNE, E. JOAN STOKES, AND PAMELA M. WATERWORTH *pages* 933-935

A simple manganous chloride and Congo red disc method for differentiating *Neisseria gonorrhoeae* from *Neisseria meningitidis*

T. O. ODUGBEMI, M. G. MCENTEGART, AND S. HAFIZ *pages* 936-938

Astrovirus-associated gastroenteritis in children

C. R. ASHLEY, E. O. CAUL, AND W. K. PAVER *pages* 939-943

Further studies on the umbilical cord and its water content

J. M. SCOTT AND R. WILKINSON *pages* 944-948

Catecholamines and free fatty acids in plasma of patients undergoing cardiac operations with hypothermia and bypass

J. HIRVONEN, PIRKKO HUTTUNEN, L. NUUTINEN, AND A. PEKKARINEN *pages* 949-955

An improved method for the diagnosis of polycythaemia

D. P. BENTLEY, W. H. THOMSON, AND J. A. F. NAPIER *pages* 956-959

Haemoglobin A₂ levels in vitamin B₁₂ and folate deficiency

L. A. HENSHAW, J. L. TIZZARD, K. BOOTH, AND M. E. J. BEARD *pages* 960-962

A direct binding assay for rheumatoid factor serum antiglobulins using fluorescein-labelled Fc fragment of human immunoglobulin-G

IRENE SINGH AND G. E. FRANCIS *pages* 963-973

Demonstration of immunoglobulin in cryostat and paraffin sections of human tonsil by immunofluorescence and immunoperoxidase techniques

R. C. CURRAN AND J. GREGORY *pages* 974-983

Atheroembolism

W. F. KEALY *pages* 984-989

Carcinoid tumour of the uterine cervix

T. F. C. S. WARNER *pages* 990-995

Technical quality control in histopathology

W. T. BARR *pages* 996-998

Technical methods

Urine cytology by a filter imprint method

R. BUCHANAN, M. J. SWORN, AND J. H. R. HAWTHORNE *pages* 999-1000

Comparison of radioimmunoassay and enzyme immunoassay for detecting hepatitis B surface antigen in serum from freshly donated blood and selected blood products

R. HOPKINS, S. ROSS, T. JORDAN, AND A. D. WATKINS *pages* 1001-1002

Prediction of red cell mass from weight and height: a nomogram

R. W. PAYNE *pages* 1003-1004

Letters to the Editor *pages* 1004-1005

Book reviews *pages* 1006-1008
