

Journal of Clinical Pathology

British Medical Association, Tavistock Square, London WC1H 9JR

Contents Vol. 31, No. 4, April 1978

Editorial: Authorships and acknowledgements
page 299

Lazy leucocyte syndrome—disorder of the
granulocyte membrane?

P. H. PINKERTON, JEAN B. ROBINSON, AND
J. S. SENN pages 300-308

Antibody to hepatitis B surface antigen in
haemophiliacs on long-term therapy with
Scottish factor VIII

C. J. BURRELL, S. H. BLACK, AND D. M. RAMSAY
pages 309-312

Bone marrow fibrosis in acute lymphoblastic
leukaemia of childhood

I. M. HANN, D. I. K. EVANS, H. B. MARSDEN,
P. MORRIS JONES, AND M. K. PALMER
pages 313-315

Distribution of transferrin, ferritin, and
lactoferrin in human tissues

D. Y. MASON AND C. R. TAYLOR pages 316-327

Role of imprint cytology in intraoperative
diagnosis: value and limitations

K. C. SUEN, W. S. WOOD, A. A. SYED,
N. F. QUENVILLE, AND P. B. CLEMENT pages
328-337

Human polyomavirus (BK) infection and
ureteric stenosis in renal allograft recipients

D. V. COLEMAN, E. F. D. MACKENZIE, S. D.
GARDNER, J. M. POULDING, B. AMER, AND
W. J. I. RUSSELL pages 338-347

Urinary tract infection in young women, with
special reference to *Staphylococcus saprophyticus*

W. A. GILLESPIE, MARGARET A. SELLIN,
PATRICIA GILL, MARY STEPHENS, L. A. TUCKWELL,
AND A. L. HILTON pages 348-350

Aberrant form of *Pseudomonas aeruginosa* in
sputum and cerebrospinal fluid causing infection
in a compromised patient

JOHN MIDDLETON AND HERMAN CHMEL pages
351-354

Comparison of susceptibility of *Neisseria*
meningitidis to sodium sulphadiazine and
sodium fusidate *in vitro*

R. S. MILES AND A. MOYES pages 355-358

Free-sporing *Cl. welchii* in ordinary laboratory
media and conditions

M. RAHMAN pages 359-360

Ethanol formed from arabinose: a rapid
method for detecting *Escherichia coli*

P. J. COLOE pages 361-364

Head-space gas liquid chromatography for
rapid detection of *Escherichia coli* and
Proteus mirabilis in urine

P. J. COLOE pages 365-369

Purification of specific precipitinogen and
extraction of endotoxin from *Haemophilus*
influenzae

J. C. VAN DER ZWAN, J. DANKERT, K. DE VRIES,
N. G. M. ORIE, AND H. F. KAUFFMAN pages 370-377

Fluorimetric assay of mycobacterial group-
specific hydrolase enzymes

J. M. GRANGE pages 378-381

Chemical and kinetic study of the lipoproteins
in abetalipoproteinaemic plasma

JAMES SHEPHERD, MURIEL CASLAKE, ELIZABETH
FARISH, AND ADAM FLECK pages 382-387

Technical methods

A rapid paper-strip method for the detection
of penicillinase production by penicillin
resistant strains of *Staphylococcus aureus*

D. B. WHELDON AND MARY P. E. SLACK pages
388-389

A simpler and less expensive approach to
platelet counting with improved precision
using the Technicon Autocounter

M. M. LAVER AND M. F. HOWELL pages 390-392

Letter to the Editor page 393

Book reviews pages 393-394
