

Journal of Clinical Pathology

British Medical Association, Tavistock Square, London WC1H 9JR

Contents Vol. 32, No. 2, February 1979

The priority test request form
A. R. HENDERSON *pages* 97-99

An approach to quality and performance control in a computer-assisted clinical chemistry laboratory
P. E. UNDRILL AND S. C. FRAZER *pages* 100-108

Urinary total porphyrins by ion exchange analysis: Reference values for the normal range and remarks on preformed porphyrins in acute porphyria urine
J. FOGSTRUP AND T. K. WITH *pages* 109-112

An interfering factor in the automated analysis of calcium
P. GOSLING AND H. G. SAMMONS *pages* 113-116

Serum protein profile in sickle cell disease
U. P. ISICHEI *pages* 117-121

Comparison of enzyme-linked immunosorbent assay (ELISA) technique and complement-fixation test for estimation of cytomegalovirus IgG antibody
J. C. BOOTH, GILLIAN HANNINGTON, T. A. G. AZIZ, AND H. STERN *pages* 122-127

Comparison of passive haemagglutination and haemagglutination-inhibition techniques for detection of antibodies to rubella virus
C. J. BIRCH, B. P. GLAUN, V. HUNT, L. G. IRVING, AND I. D. GUST *pages* 128-131

Hepatitis Be antigen and antibody in hepatitis B surface antigen positive blood donors
A. BARR, S. H. BLACK, C. J. BURRELL, B. DOW, AND I. MACVARISH *pages* 132-135

Rapid serotyping of groups A, B, and C meningococci by rocket-line immunoelectrophoresis and co-agglutination
D. DANIELSSON AND P. OLCÉN *pages* 136-142

Anaerobic organisms in postoperative wounds
P. J. SANDERSON, M. W. D. WREN, AND A. W. F. BALDWIN *pages* 143-147

Effect of pH on sporicidal and microbicidal activity of buffered mixtures of alcohol and sodium hypochlorite
JANET E. DEATH AND D. COATES *pages* 148-153

ISSN 0021-9746

Anti blood group-M autoantibodies with livedo reticularis, Raynaud's phenomenon, and anaemia
J. M. SANGSTER, M. G. KENWRIGHT, M. P. WALKER, AND A. C. PEMBROKE *pages* 154-157

Periodic acid-Schiff reactions and prognosis in lymphoblastic leukaemia
J. S. LILLEYMAN, V. MILLS, P. J. SUGDEN, AND J. A. BRITTON *pages* 158-161

A rapid method for electron microscopic examination of blood cells
ANTONIO COPPOLA *pages* 162-167

A comparison of thiomersal and 50% alcohol as preservatives in urinary cytology
M. E. BEYER-BOON, P. W. ARENTZ, AND R. S. KIRK *pages* 168-170

Gastrin cells and fasting serum gastrin levels in duodenal ulcer patients
JUAN PIRIS AND R. WHITEHEAD *pages* 171-178

Histological appearances of the gastric mucosa 15-27 years after partial gastrectomy
ANN SAVAGE AND S. JONES *pages* 179-186

A new technique for Gram staining paraffin-embedded tissue
KRÆSTEN ENGBÆK, KIRSTEN STÆHR JOHANSEN, AND MERETE EGHOLM JENSEN *pages* 187-190

Technical methods

Storage of reagent platelets for anti-platelet antibody testing in the ⁵¹Cr platelet lysis assay
G. E. LIZAK AND F. C. GRUMET *pages* 191-192

Use of sheep erythrocytes as solid phase supports in double antibody immunoassay systems
JOHN KANE AND ERIC GOWLAND *pages* 193-195

Demonstration of creatine phosphokinase in human myocardial slices
R. J. TRICKEY AND M. J. DAVIES *pages* 196-197

Letters to the Editor *page* 198

Book reviews *pages* 198-200

ASTM CODEN: JCPAAK 32(2) 97-200 (1979)
