

Journal of Clinical Pathology

British Medical Association, Tavistock Square, London WC1H 9JR

Contents Vol. 33, No. 4, April 1980

The examination of embryonic and fetal material in diagnostic histopathology laboratories

CL BERRY *pages 317-326*

Variations in the ultrastructure of human nasal cilia including abnormalities found in retinitis pigmentosa

B FOX, TB BULL, AND GB ARDEN *pages 327-335*

Histochemical diagnosis of Hirschsprung's disease and a comparison of the histochemical and biochemical activity of acetylcholinesterase in rectal mucosal biopsies

WJA PATRICK, GTN BESLEY, AND II SMITH *pages 336-343*

Histopathological changes in the liver after allogeneic bone marrow transplantation

JP SLOANE, MJG FARTHING, AND RL POWLES *pages 344-350*

Use of a histopathology data pool for epidemiological analysis

JC MACARTNEY, TP ROLLASON, AND BW CODLING *pages 351-355*

Demonstration of carcinoembryonic antigen in human breast carcinomas by the immunoperoxidase technique

ROSEMARY A WALKER *pages 356-360*

A quantitative study of the influence of fixation on immunoperoxidase staining of rectal mucosal plasma cells

J PIRIS AND ND THOMAS *pages 361-364*

Direct immunofluorescence of skin using formalin-fixed paraffin-embedded sections

SL MERA, EW YOUNG, AND JWB BRADFIELD *pages 365-371*

A serum-dependent defect of neutrophil function in chronic mucocutaneous candidiasis

SM WALKER AND SJ URBANIAK *pages 370-372*

An assessment of red cell deformability using a simple filtration method

MM DRUMMOND, GDO LOWE, JJF BELCH, JC BARBENEL, AND CD FORBES *pages 373-376*

Quantitation of oestrogen receptors: use of solid-phase antisteroid antibodies to quantify binding sites and determination of dissociation constant

S RAAM AND JL COHEN *pages 377-379*

Age- and sex-related reference ranges for eight plasma constituents derived from randomly selected adults in a Scottish new town

MARY D GARDNER AND R SCOTT *pages 380-385*

Grouping of beta-haemolytic streptococci by agglutination

CSF EASMON, SUZANNE EM COX, AND ALISON HOWARD *pages 386-389*

Immunoassay of serum conjugates of cholic acid in cystic fibrosis

GP DAVIDSON, MARY COREY, FRED A MORAD-HASELL, JUDITH M SONDHEIMER, D CROZIER, AND GG FORSTNER *pages 390-394*

Synergistic haemolysis test for presumptive identification and differentiation of *Clostridium perfringens*, *C. bifermentans*, *C. sordellii*, and *C. paraperfringens*

SM GUBASH *pages 395-399*

Epidemiological study of klebsiella infection in the special care baby unit of a London hospital

EVE RISER, P NOONE, AND FRANCES M HOWARD *pages 400-407*

An experimental model for ascending acute pyelonephritis caused by *Escherichia coli* or proteus in rats

P LARSSON, B KAUJSER, I MATTSBY BALTZER, AND S OLLING *pages 408-412*

Letters to the Editor *pages 413-415*

Book reviews *pages 415-416*
