

# Contents Vol 34, No 10, October 1981

Is copper hepatotoxic in primary biliary cirrhosis?

O EPSTEIN, B ARBORGH, M SAGIV, R WROBLEWSKI, PJ SCHEUR, S SHERLOCK *pages* 1071-5

Localisation of immunoglobulin on the liver cell surface in primary biliary cirrhosis

K KROGSGAARD, U TAGE-JENSEN, P WANTZIN, J ALDERSHVILE, F HARDT *pages* 1076-9

Quantitative study of the immunoglobulin-containing cells in trephine samples of bone marrow

J CROCKER, RC CURRAN *pages* 1080-2

Cell volumes of normal and malignant mononuclear cells

ELIZABETH H CHAPMAN, AS KUREC, FR DAVEY *pages* 1083-90

Production of freeze-dried human antihæmophilic cryoprecipitate

G MILLIGAN, R GRAHAM, S HANRATTY, W MUIR, R MITCHELL *pages* 1091-3

Amniotic fluid fluorescence polarisation values for assessing fetal lung maturation

M LEGGE, HC POTTER *pages* 1094-6

Urinary excretion of glycosaminoglycans and hydroxyproline in Paget's disease of bone, compared with neoplastic invasion of bone

LYNNE BOWER, G MANLEY *pages* 1097-1101

Some observations on the assay of arylsulphatase A in urine

DF DAVIDSON *pages* 1102-5

Evaluation of the Phadebact Gonococcus Test in the identification of *Neisseria gonorrhoeae* in a routine diagnostic laboratory

DS TOMPKINS, BBG NEHAUL, CAROLYNN AF SMITH, E MARY COOKE *pages* 1106-9

Appraisal in the diagnostic laboratory of three commercially available anaerobic cabinets

KD PHILLIPS, AT WILLIS *pages* 1110-13

Contamination of the environment by special purpose centrifuges used in clinical laboratories

GJ HARPER *pages* 1114-23

Simplified procedure for the routine isolation of *Clostridium difficile* from faeces

SP BORRIELLO, PAULINE HONOUR *pages* 1124-7

Diffusion in gel-enzyme-linked immunosorbent assay—a new serological test for leptospirosis

RTM CURSONS, PA PYKE *pages* 1128-31

An on-line computer system for hospital bacteriology: description of its development and comments after five years' use

JN BLAIR, PP BROWN *pages* 1132-7

*Pneumocystis carinii* pneumonia: a light microscopical and ultrastructural study

PS HASLETON, A CURRY, EM RANKIN *pages* 1138-46

Effect of oxygen on the lungs after blast injury and burns

PS HASLETON, P PENNA, J TORRY *pages* 1147-54

Ectopic vestigial lesions of the neck and shoulders

DS SHAREEF, R SALM *pages* 1155-62

Autoantibody to nerve tissue in a patient with a peripheral neuropathy and an IgG paraprotein

HF SEWELL, JB MATTHEWS, ELAINE GOOCH, P MILLAC, A WILLOX, MA STERN, F WALKER *pages* 1163-6

Myocardial fibre calcification

J MCCLURE, AS PEITERSE, DJ POUNDER, PS SMITH *pages* 1167-74

Clinical and histological features of a group of patients with sporadic non-A, non-B hepatitis

MAY BAMBER, AK MURRAY, IVD WELLER, A MORELLI, PJ SCHEUER, HC THOMAS, SHEILA SHERLOCK *pages* 1175-80

Measurements of intestinal villi in non-specific and ulcer-associated duodenitis—correlation between area of microdissected villus and villus epithelial cell count

M HASAN, ANNE FERGUSON *pages* 1181-6

## Technical methods

Technique for identifying areas of interest in human breast tissue prior to embedding for electron microscopy

DJP FERGUSON, TJ ANDERSON *pages* 1187-9

Automated technique for the rapid processing of breast tissue for subgross examination

SARAH L MANTON, DJP FERGUSON, TJ ANDERSON *pages* 1189-91

Letters to the Editor *pages* 1191-2

Book reviews *pages* 1192-4
