

Contents Vol 34, No 11, November 1981

ACP Symposium on Diseases of the Kidney held at the Royal Society of Medicine, London on 3 November 1980. Edited by G Walters and GK McGowan.

Editors' foreword *page* 1196

New ideas on the anatomy of the kidney
DB MOFFAT *pages* 1197-1206

Advances in understanding the morphology
of glomerular disease
DR TURNER *pages* 1207-1213

Role of circulating immune complexes in renal
diseases
RJ LEVINSKY *pages* 1214-1222

New ideas in the pathogenesis of nephritis
D GWYN WILLIAMS *pages* 1223-1227

Renal amyloidosis
NF JONES *pages* 1228-1232

Blood pressure and the kidney
JD SWALES *pages* 1233-1240

The kidney and liver diseases
SP WILKINSON *pages* 1241-1244

Uric acid, gout and the kidney
JS CAMERON, HA SIMMONDS *pages* 1245-1254

ISSN 0021-9746

Analgesic nephropathy in the United Kingdom
incidence, clinical features and pathogenesis
JR COVE-SMITH *pages* 1255-1260

Genesis and evolution of diabetic nephropathy
H KEEN, GC VIBERTI *pages* 1261-1266

Modern diuretics and the kidney
AF LANT *pages* 1267-1275

Old and new tests of renal function
GB HAYCOCK *pages* 1276-1281

New ways in dialysis
RA BAILLOD *pages* 1282-1284

Dialysis encephalopathy, bone disease and
anaemia: the aluminium intoxication
syndrome during regular haemodialysis
IS PARKINSON, MK WARD, DNS KERR
pages 1285-1294

Osteomalacia and chronic renal failure
JA KANIS *pages* 1295-1307

Letters to the Editor *pages* 1308-1310

ASTM CODEN:JCPAAK 34(11) 1195-1310 (1981)
