### Review article

Alcohol induced liver disease KA FLEMING, JO' D MCGEE *page 721*

Production of human chorionic gonadotrophin by a hepatoblastoma resulting in precocious puberty R BEACH, P BETTS, M RADFORD, H MILLWARD-SADLER *page 734*

Immunocytochemical localisation of renin in nephroblastoma GBM LINDOP, S FLEMING, AAM GIBSON *page 738*

Changes in bone histoquantitative parameters and histochemical staining reactions for aluminium in a group of patients with chronic renal failure following a reduction in the aluminium concentration of the haemodialysis fluid J McCLURE, NL FAZZALARI, RG FASSETT, PG PUGSLEY *page 743*

Endoscopic screening for malignancy in the gastric remnant: the clinical significance of dysplasia in gastric mucosa GJA OFFERHAUS, J vd STADT, K HUIBREGTSE, GNJ TYTGAT *page 748*

Shape and texture analysis of liver cell nuclei in hepatomas by computer aided microscopy R JAGOE, C SOWTER, G SLAVIN *page 755*

Hepatitis A, B, and non-A, non-B in Danish hospital nursing staff P SKINHØJ, H VINTERBERG, J ALDERSHVIK, P KRYGER *page 763*

Reed-Sternberg/lymphocyte rosette: lymphocyte subpopulations as defined by monoclonal antibodies CHRISTINE S MORRIS, AE STUART *page 767*

Plasminogen activators in alcoholic cirrhosis: demonstration of increased tissue type and urokinase type activator NUALA A BOOTH, JUDITH A ANDERSON, B BENNETT *page 772*

Blood group Lewis phenotype on erythrocytes and in saliva in alcoholic pancreatitis and chronic liver disease L STIGENDAL, R OLSSON, L RYDBERG, BO E SAMUELSSON *page 778*

Defective phagocytosis in insulin controlled diabetics: evidence for a reaction between glucose and opsonising proteins NJ DAVIDSON, JM SOWDEN, J FLETCHER *page 783*

Fibronectin as an opsonic regulator of monocyte phagocytosis AW SIMPSON, BJ BOUGHTON *page 787*

Impaired opsonophagocytosis of serotypes Ib and II of group B streptococci as compared with serotypes Ia and III: role of the alternative pathway of complement in opsonisation of serotype III of group B streptococci P HINDOCHA, RUTH HILL, CBS WOOD, URMILA PATEL, G HUNT *page 790*

Detection of toxin production by *Corynebacterium diphtheriae*: results of a trial organised as part of the United Kingdom National External Microbiological Quality Assessment Scheme JJS SNELL, JV DEMELLO, PS GARDNER, W KWANTES, R BROOKS *page 796*

An assessment of environmental contamination arising from the use of some automated equipment in microbiology GJ HARPER *page 800*

Comparison of the Vi indirect fluorescent antibody test with the Widal agglutination method in the serodiagnosis of typhoid fever NIVEDITA DOSHI, AG TAYLOR *page 805*

Comparison of the sensitivity of microscopy and culture in the laboratory diagnosis of intestinal protozoal infection A McMILLAN, GJC McNEILLAGE *page 809*

Sensitivity of detecting *Chlamydia trachomatis* elementary bodies in smears by use of a fluorescein labelled monoclonal antibody: comparison with conventional chlamydial isolation BRENDA J THOMAS, RT EVANS, DA HAWKINS, D TAYLOR-ROBINSON *page 812*

Food borne infection by a Norwalk like virus (small round structured virus) T RIORDAN, J CRASKE, JEANNE L ROBERTS, A CURRY *page 817*

C reactive protein rapid assay techniques for monitoring resolution of infection in immunosuppressed patients RI HARRIS, PCW STONE, AG HUDSON, J STUART *page 821*

Serum placental type alkaline phosphatase in cigarette smokers PJ McLAUGHLIN, AM TWIST, CC EVANS, PM JOHNSON *page 826*

### Technical methods

Optimal use of the cationic polyelectrolyte poly-L-lysine in the preparation of cell monolayers for diagnostic cytopathology KC WATTS, OAN HUSAIN *page 829*

Semiautomated method for quantitative urine culture SG EDMONDSON, LJ ENRIGHT *page 831*

Value of factor VIII related antigen as a means of demonstrating extramedullary megakaryopoiesis J CROCKER, PJ SMITH *page 834*

**Letters to the Editor** *page 836*
