## Annals of the Rheumatic Diseases

EDITOR: M. DOHERTY

First published in 1939, and founded by the predecessor of the Arthritis and Rheumatism Council for Research in Great Britain and the Commonwealth, **ANNALS OF THE RHEUMATIC DISEASES** aims to publish work on all aspects of rheumatology and disorders of connective tissue. Leaders and review articles are commissioned to cover the wide aspects of rheumatology. Other features include clinical, epidemiological and laboratory studies, together with case reports and technical innovations published as technical reports. Letters are encouraged and there are flourishing Book Reviews, Notes and News sections.

To facilitate faster publication, the page budget has been doubled for 1992.
