*The Journal of the Association of Clinical Pathologists*

## Occasionals

- 645 **Histology of normal haemopoiesis: Bone marrow histology I** *B S Wilkins*  
 650 **A pragmatist's approach to pathology costing: the Welsh Datatree project** *D I Gozzard, M E Macaulay, D S Nuttall, E R M Jones*  
 654 **Bodies recovered from water: a personal approach and consideration of difficulties** *W Lawler*

## Papers

- 660 **Expression of Ki-67 nuclear antigen in B and T cell lymphoproliferative disorders** *N de Melo, E Matutes, I Cordone, R Morilla, D Catovsky*  
 664 **Proliferating cell nuclear antigen and S phase fraction in endometrial stromal sarcoma** *J B Schofield, J Mansi, R S Camplejohn, D P Lane, C Fisher*  
 668 **Human tonsil intraepithelial B cells: a marginal zone-related subpopulation** *M Morente, M A Piris, J L Orradre, C Rivas, R Villuendas*  
 673 **Non-isotopic in situ hybridisation and immunophenotyping of infected cells in the investigation of human fetal parvovirus infection** *A L Morey, H J Porter, J W Keeling, K A Fleming*  
 679 **Glutathione S-transferases in neonatal liver disease** *J Mathew, A R Cattan, A G Hall, et al*  
 684 **Adenovirus infection of the large bowel in HIV positive patients** *A Maddox, N Francis, J Moss, C Blanshard, B Gazzard*  
 689 **Detection of hepatitis B pre-core mutant by allele specific polymerase chain reaction** *ES-F Lo, Y-M D Lo, CH Tse, K A Fleming*  
 693 **Relative usefulness of electron microscopy and immunocytochemistry in tumour diagnosis: 10 years of retrospective analysis** *A U H Dar, P M Hird, B E Wagner, J C E Underwood*  
 697 **Distinction between aleukaemic prodrome of childhood acute lymphoblastic leukaemia and aplastic anaemia** *M M Reid, G P Summerfield*  
 701 **The cause of turbidity in lyophilised plasmas and its effects on coagulation tests** *C F Hirst, L Poller*  
 704 **Factors affecting the maintenance dose of warfarin** *A H James, R P Britt, C L Raskino, S G Thompson*  
 707 **Survey of oral anticoagulant treatment in children** *D I K Evans, M Rowlands, L Poller*  
 709 **Diagnostic tests for *Helicobacter pylori*: Comparison and influence of non-steroidal anti-inflammatory drugs** *A S Taha, P Boothman, I Nakshabendi, et al*  
 713 ***Mycobacterium tuberculosis*: a continuing cause of sudden and unexpected death in west London** *R C Chapman, S M Claydon*  
 716 **Staphylococcal toxins and sudden infant death syndrome** *J E Malam, G F Carrick, D R Telford, J A Morris*

## Short reports

- 722 **Pulsed field gel electrophoresis on frozen tumour tissue sections** *J Boultonwood, L Kaklamanis, K C Gatter, J S Wainscoat*  
 724 **Has there been an information explosion in histopathology?** *S S Cross, F Macgillivray*  
 726 **HER2(*c-erbB-2*) oncoprotein expression in colorectal adenocarcinoma: an immunohistological study using three different antibodies** *A H Arnaout, P M Dawson, S Soomro, et al*  
 28 **Cytogenetic characterisation of small round cell tumours using fine needle aspiration** *C Sreekantaiah, L Appaji, D Hazarika*  
 31 **Pseudohyperphosphataemia in patients with multiple myeloma** *D McClure, L C Lai, C Cornell*  
 33 **Expression of 120 kilodalton protein and cytotoxicity in *Helicobacter pylori*** *J E Crabtree, N Figura, J D Taylor, et al.*  
 35 **Selected cryopreservatives for long term storage of *Helicobacter pylori* at low temperatures** *M Shahamat, C Paszko-Kolva, U E H Mai, H Yamamoto, R R Colwell*  
 37 **Successful freeze storage and lyophilisation for preservation of *Helicobacter pylori*** *A Spengler, A Gross, H Kaltwasser*  
 38 **A simple and direct method of turnaround time audit in a microbiology laboratory** *P G Murphy, E Crothers*  
 40 **Evaluation of modified passive haemagglutination assay for Vi antibody estimation in *Salmonella typhi* infections** *G Kang, G Sridharan, M V Jesudason, T J John*
