

# When disaster strikes

How would you cope with:  
 A plane crash?  
 A terrorist attack?  
 A crowd disaster?  
 This practical guide:

- Provides clear guidance on rescuing and treating victims, planning and organisation of rescue teams, and post-disaster management of victims' social and psychological needs.
- Gives advice on the clinical management of bone, soft tissue, crush asphyxia injuries, and burns.
- Looks at ways of minimising the risk of injury for the future.
- Includes examples of real life emergency plans.

Written by a team of authors with first hand experience of dealing with major incidents such as the M1 plane crash, Hillsborough football disaster, and the Northern Ireland troubles, this clearly written book will help all accident and emergency staff, doctors, rescue services, and hospital managers in planning for both the organisational and clinical aspects of disaster management.

Illustrated with over 70 photographs and drawings.  
 UK £ 36.00; Overseas £39.00 (BMA members £34.00; £37.00). ISBN 0 7279 0841 3 328 pages July 1994

**UNITED ARAB EMIRATES  
UNIVERSITY**

**FACULTY OF MEDICINE  
AND HEALTH SCIENCES**

The Department of Medical Microbiology has a vacancy for a clinical virologist at either Assistant or Associate Professor level, to participate in the teaching of medical undergraduates, undertake relevant research activities and provide clinical service to the two university teaching hospitals.

Applicants should be medically qualified and hold a higher qualification such as PhD, MD or an appropriate specialist qualification (membership of one of the Royal Colleges of the U.K. or equivalent) and also be able to demonstrate a credible research record with publications in international journals.

Benefits for the successful candidate include a competitive tax free salary, free accommodation, furniture allowance and assistance with children's tuition fees. Annual leave arrangements are generous (73 days per annum) and assistance is provided with attending conferences overseas. An award of 8.6% of the gross annual salary is payable at the end of each year of service.

Further information on this appointment may be obtained from the Chairman of the Department, Professor Maurice Longson, who can be contacted on : Tel + 9713-5044303 from 22nd October 1994.

A formal application can be made by forwarding a comprehensive curriculum vitae, including details of publications and the names and addresses of four current referees to:

The Director of Personnel,  
United Arab Emirates University,  
Faculty of Medicine and Health Sciences,  
P O Box 17666, Al Ain,  
United Arab Emirates

Fax No + 9713-657649

The closing date for receipt of applications will be four weeks from the date of appearance of the advertisement.

**UNITED ARAB EMIRATES  
UNIVERSITY**

**FACULTY OF MEDICINE  
AND HEALTH SCIENCES**

The Department of Pathology has a vacancy in each of the following specialties at either Professorial or sub-Professorial level, according to experience and qualifications :

- 1) Chemical Pathology (Clinical Chemistry)
- 2) Haematology
- 3) Cytogenetics

The successful candidates will provide expertise on their related subject within a small specialty driven unit incorporated in the Department of Pathology and will be expected to deliver clinical service within the two university teaching hospitals and to this end, preference will be given to candidates who have a medical degree and are licensed physicians and possess a higher qualification (PhD, MD or membership of an appropriate Royal College of the UK or equivalent).

Applicants should have experience and an interest in the teaching of undergraduate medical students and be able to demonstrate a credible research record with publications in international journals. The department places special emphasis on the integrative role of pathology in the curriculum which has been founded on the concept of problem based learning.

Benefits for these positions are of the highest order and include a competitive tax free salary, accommodation, annual air ticket and assistance with children's tuition fees. Annual leave arrangements are generous (73 days per annum) and assistance is provided with attending conferences overseas. An award of 8.6% of the gross annual salary is payable at the end of each year of service.

Informal inquiries may be directed to Professor Maurice Longson, Chairman of Medical Microbiology and Acting Chairman of Pathology from 22nd October 1994, who can be contacted on: Tel + 971-3-5044303.

A formal application for either of these appointments can be made by forwarding a comprehensive curriculum vitae including details of publications and the names and addresses of four referees to:

The Director of Personnel, United Arab Emirates University,  
Faculty of Medicine and Health Sciences,  
P O Box 17666, Al Ain,  
United Arab Emirates  
Fax No + 971-3-657649

The closing date for receipt of applications will be four weeks from the date of appearance of this advertisement.

# The Unacceptable Face of Science

Fraud exists, both in academic medical research and in drug trials in general practice. This important new book sets out the evidence, reviewing events since 1975 when the first notorious case of fraud became public knowledge.

The problem is viewed from many perspectives, with contributions from a general practitioner, head of an academic unit, contract research company director, statistician, editor and lawyer. Together, their information provides a compelling account of the extent to which fraud and misconduct have been and continue to be practised in medicine.

*Fraud and Misconduct in Medical Research* is a valuable practical text for all researchers – and ultimately anyone who practises medicine.

*Contents include:*

- fraud in general practice
- statistical aspects of detection
- the British Pharmaceutical Industry's response
- legal aspects
- the French scene
- the Danish scene
- data audits in trials and their implications for misconduct
- fraud and the editor

# Statistically speaking, you're better off with a BMJ book...

## NEW REVISED EDITION

### Medical Statistics on Personal Computers

*R A Brown, J Swanson Beck*

How do you get the best out of the software available for analysing statistical data on PC's? This practical guide has been completely revised and updated and includes new chapters on survival analysis, statistical power calculations, writing up statistical analyses for medical papers, and useful notes on packages available.

**UK £10.95; Overseas £13.00**  
**(BMA members £9.95; £12.00)**  
 160 pages Second edition April 1994

### Statistics in Practice

*Sheila M Gore, Douglas G Altman*

This authoritative book clearly and simply explains how to design studies, apply statistical techniques, and interpret studies using statistics.

**UK £9.95; Overseas £11.00**  
**(BMA members £7.95; £10.00)** 107 pages 1982

### Statistics at Square One

*T D V Swinscow*

The classic "beginner's guide", providing step by step instruction on the tools of the statistician such as: standard deviation, X<sup>2</sup> tests, non-parametric tests, and correlation.

**UK £4.95; Overseas £6.00**  
**(BMA members £4.45; £5.50)**  
 94 pages Eighth edition 1983

### Statistics with Confidence

*Martin J Gardner, Douglas G Altman*

For everyone using statistical methods to present their findings, this book gives the reasons for using confidence intervals, followed by detailed methods of calculation, including numerous worked examples and specially compiled tables.

**UK £9.95; Overseas £11.00 (BMA members £8.95; £10.00)**  
 156 pages 1989

### Confidence Interval Analysis (CIA)

*Martin J Gardner, Stephen B Gardner, Paul D Winter*

This microcomputer disk with manual takes the sweat out of calculating confidence intervals. The program can be used alone or with *Statistics with Confidence*.

Software is available for IBM compatibles on either 5¼ or a 3½ inch disk.

**UK £65.00** Educational establishments, research institutes, and the NHS: £45.95 (inc. VAT) 82 pages 1989
