

## Training Courses for Pathologists

# 1995

The following courses are offered by designated

### UK National Training Centres

All courses are aimed at pathologists (registrars, senior registrars, consultants) dealing with breast pathology generated from screening and symptomatic practice. Applications are welcome from EC and other countries. Some courses may also be appropriate for senior medical laboratory scientific staff.

The courses advertised are all approved by the Training and Education Sub Committee of the National Coordinating Group for Breast Screening Pathology

### **GUILDFORD (JARVIS) BREAST SCREENING TRAINING AND DIAGNOSTIC CENTRE**

**Multi-Disciplinary Course : Diagnosis and Management of Breast Disease : 16th - 17th May 1995**

- This course is designed for all medical and technical staff concerned with the management and diagnosis of breast disease to attend as a team or individually. The programme is arranged to maximise participants' involvement in workshops which will be facilitated by members of the course planning team with emphasis on action learning. The cases studied will cover the full range of problems in breast disease. Members of the faculty include Drs M. G. Cook, G. McKee, J. Cooke, W. White and Mr M.Kissin.

*Further information from : Mrs Margaret Cameron, Jarvis Breast Screening Training and Diagnostic Centre, Stoughton Road, Guildford Surrey GU1 1LJ Tel : 0483 571821 Fax: 0483 303340*

### **KING'S COLLEGE HOSPITAL, London**

**Update Course in Breast Screening Histopathology & Cytopathology : 6th - 7th November 1995**

- This course is suitable for consultants and trainees. Emphasis will be placed on workshop-style teaching.

*Further information from : Dr S. Humphreys, Consultant Histopathologist, Department of Histopathology, King's College Hospital, Denmark Hill, London SE5 9RS. Tel : 071 346 3092/3045 Fax : 071 346 3670*

### **NOTTINGHAM NATIONAL BREAST SCREENING TRAINING CENTRE**

**Continuing Medical Education. Breast Disease - Current Issues : 6th February & 23rd October 1995**

- This multi-disciplinary update course, held at the City Hospital, will address current aspects of breast screening and breast disease management, as well as lessons learnt so far from the NHS Breast Screening Programme, including progress reports on associated Clinical Trials.

**Multi-Disciplinary Course on Breast Cancer Screening : 5th - 7th June & 20th - 22nd November 1995**

- A three-day course at the City Hospital which covers radiological, clinical and pathological aspects of breast cancer screening theory and practice.

**Fine Needle Aspiration Cytology of the Breast : 27th - 28th March 1995**

- Held at the Queen's Medical Centre, in conjunction with the British Society for Clinical Cytology, this course is structured around lectures and workshops which includes teaching slide sets on all aspects of screening and symptomatic breast cytology. Faculty includes lecturers from all the major UK Training Centres. Course is IMSL CPD accredited.

*Further information from : Mrs Lynn Jordan, Business Manager, Nottingham National Breast Screening Training Centre, City Hospital, Hucknall Road, Nottingham NG5 1PB.  
Tel : 0602 691689 Fax : 0602 627702*

### **ROYAL MARSDEN HOSPITAL, London**

**Breast Cytodiagnosis Workshop: 27th October 1995**

- A microscopy workshop covering all aspects of breast cytodiagnosis.

*Further information from : Dr P A Trott, Department of Cytopathology, Royal Marsden Hospital, Fulham Road, London SW3 6JJ. Tel: 071 352 8171 Fax : 071 351 9237*

### **SOUTH THAMES REGION, Guildford**

**Breast Cytology Course : 16th - 17th February 1995**

- This two-day course covers all aspects of breast screening cytology from radiology to detailed cytology. The speakers include Jarvis radiologists, Dr. J. Cooke and Dr. C. Kissin, Consultant breast surgeon Mr. Mark Kissin with cytological input provided by Dr. Peter Trott, Dr. Steve Humphreys, Dr. Clive Wells and Dr. Grace McKee. Morning lectures are followed by afternoon workshops and case discussions. Course organised in conjunction with the Royal Marsden Hospital, King's College Hospital and St. Bartholomew's Hospital, London.

*Further information from : Dr Grace McKee, South Thames West Regional Cytology Training Centre, Department of Cytopathology, Royal Surrey County Hospital, Egerton Road, Guildford, Surrey GU2 5XX

# Appointments Vacant

Immediate openings for the following two academic-service positions at the American University of Beirut Medical Center, Beirut, Lebanon, Department of Laboratory Medicine and Hospital Laboratories.

1. An M.D. Clinical Pathologist, board certified, at the level of associate or full professor; well rounded in clinical pathology, with experience in service, teaching, and research. Special interest in hematopathology, hemostasis-coagulation, and/or transfusion medicine is advantageous.
2. An M.D. Clinical Pathologist (or a qualified Ph.D.) with special interest and experience in immunology, including transplantation and related issues, at the level of assistant professor.

Salaries and benefits are relative to rank and experience. Interested applicants should send a c.v. and names and addresses of three references, by January 31, 1995, to:

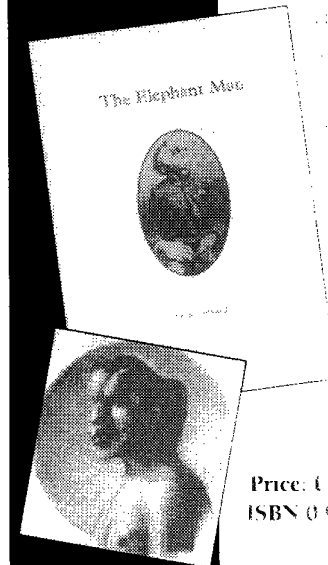

Samih Y. Alami, Ph.D., M.D.  
Chairperson, Department of Laboratory Medicine  
c/o American University of Beirut  
850 Third Avenue, 18th Floor  
New York NY 10022-6297

AUB is an Affirmative Action/Equal Opportunity Employer.

U.S. passports are presently invalid for travel to, in or through Lebanon, and for residence in Lebanon, by order of the Department of State, and therefore applications from individuals who would travel to or reside in Lebanon on a U.S. passport cannot at this time be considered.

## ANATOMICAL PATHOLOGY TECHNOLOGY

2 WEEK RESIDENTIAL COURSE:  
6th March 1995 to 17th March 1995

DEPARTMENT OF PATHOLOGY,  
SOUTHAMPTON GENERAL HOSPITAL

This course is suitable for trainee pathology technicians preparing for the RIPHH certificate in 'Anatomical Pathology Technology' and for qualified technicians preparing for the RIPHH diploma in 'Anatomical Pathology Technology'. Experienced technicians seeking professional development would also be welcome. The course will emphasise practical aspects of the technician's role while covering the following areas: Management of the mortuary, Autopsy procedures (including special techniques), Systems pathology, Paediatric pathology (including disposal policies), and Infectious diseases and their containment.

The course is approved by the RIPHH.  
Cost will be £475.00 to include accommodation.  
Further details are available from:  
Mr Alan Moss,  
Higher/Senior Pathology Technician,  
The Mortuary Department,  
Level A, South Academic Block,  
Southampton General Hospital,  
Southampton,
