### Reviews

- 561** NADPH oxidase(s): new source(s) of reactive oxygen species in the vascular system? *L Van Heerebeek, C Meischl, W Stooker, C J L M Meijer, H W M Niessen, D Roos*
- 569** Angiogenesis, thrombospondin, and ductal carcinoma in situ of the breast *A Rice, C M Quinn*

### Editorial

- 575** Tissue microarrays for predictive molecular pathology *G Sauter, M Mirlacher*

### Original articles

- 577** Survey of infection in patients receiving antibody replacement treatment for immune deficiency *S J Pettit, H Bourne, G P Spickett*
- 581** Effect of margins of excision on recurrence after local excision of ductal carcinoma in situ of the breast *A G Douglas-Jones, J Logan, J M Morgan, R Johnson, R Williams*
- 587** Human papillomavirus associated with oesophageal cancer *T Matsha, R Erasmus, A B Kafuko, D Mugwanya, A Stepien, M I Parker for the CANSA/MRC Oesophageal Cancer Research Group*
- 591** Acute lymphoblastic leukaemia of the L3 subtype in adults in the Northern health region of England 1983–99 *M R Verlangi, M M Reid, N Bown, G H Jackson, G P Summerfield, S J Proctor, P R A Taylor*
- 596** Loss of nuclear expression of the p33ING1b inhibitor of growth protein in childhood acute lymphoblastic leukaemia *G S Nouman, J J Anderson, K M Wood, J Lunec, A G Hall, M M Reid, B Angus*
- 602** Telomerase activity detected in oral lichen planus by RNA in situ hybridisation: not a marker for malignant transformation *C O'Flatharta, M Leader, E Kay, S R Flint, M Toner, W Robertson, M J E M F Mabruk*
- 608** Necropsy request practices in Jamaica: a study from the University Hospital of the West Indies *T N Gibson, C T Escoffery, S E Shirley*

### Technical report

- 613** Tissue microarrays: a new approach for quality control in immunohistochemistry *J Packeisen, H Buerger, R Krech, W Boecker*

### Case reports

- 616** Sternal osteomyelitis caused by *Aspergillus fumigatus* in a patient with previously treated Hodgkin's disease *D Allen, S Ng, K Beaton, D Taussig*
- 619** Human herpesvirus 8 (HHV-8) detected in two patients with Kaposi's sarcoma-like pyogenic granuloma *P Ryan, S Aarons, D Murray, T Markham, S O'Sullivan, F Lyons, G Lee, J Fitzgibbon*

### Short reports

- 623** Incidental findings in pelvic lymph nodes at radical prostatectomy *A M Winstanley, A Sandison, S R J Bott, A Dogan, M C Parkinson*
- 627** Laboratory investigations following an unexpectedly positive crossmatch result in a patient awaiting renal transplantation *J Cole, A Wortley, J Stoves, B Clark*
- 629** Distribution of cervical glandular intraepithelial neoplasia: are hysterectomy specimens sampled appropriately? *M K Heatley*
- 631** The origin of hydrogen sulfide in a newborn with sulphhaemoglobin induced cyanosis *A Tangerman, G Bongaerts, R Agbeko, B Semmekrot, R Severijnen*

### Letters to JCP

- 634** Primary amyloid tumour of the breast: a case report *M V Deolekar, J Larsen, J A Morris*

### PostScript

#### 636 Correspondence

### Poems

- 612** Tale of a biopsy
- 633** Food for thought

### Echo

- 601** EPO is for eosinophils as HNL is for neutrophils
