

**Editorial**

- 673 Beneficial effects of statins on the kidney *B Afzali, D J A Goldsmith*

**Reviews**

- 675 Prognostic value of proliferation in invasive breast cancer: a review *P J van Diest, E van der Wall, J P A Baak*  
 682 My approach to serrated polyps of the colorectum *T Higuchi, J R Jass*

**Original articles**

- 687 Technical variations in prostatic immunohistochemistry: need for standardisation and stringent quality assurance in PSA and PSAP immunostaining *M Varma, D M Berney, B Jasani, A Rhodes*  
 691 Cytomegalovirus infection of the cervix: morphological observations in five cases of a possibly under-recognised condition *C E McGalle, H A McBride, W G McCluggage*  
 695 Discrepancies in current practice of pathological evaluation of sentinel lymph nodes in breast cancer. Results of a questionnaire based survey by the European Working Group for Breast Screening Pathology *G Cserni, I Amendoeira, N Apostolikas, J P Bellocq, S Bianchi, W Boecker, B Borisch, C E Connolly, T Decker, P Dervan, M Drijkoningen, I O Ellis, C W Elston, V Eusebi, D Faverly, P Heikkila, R Holland, H Kerner, J Kulka, J Jacquemier, M Lacerda, J Martinez-Penuela, C De Miguel, J L Peterse, F Rank, P Regitnig, A Reiner, A Sapino, B Sigal-Zafrani, A M Tanous, S Thorstenson, E Zozaya, G Fejes, C A Wells*  
 702 Upper gastrointestinal cancer pathology reporting: a regional audit to compare standards with minimum datasets *P M King, J M Blazeby, J Gupta, D Alderson, M Moorghen*  
 706 Molecular genetic analysis of FIH-1, FH, and SDHB candidate tumour suppressor genes in renal cell carcinoma *M R Morris, E N Maina, N V Morgan, D Gentle, D Astuti, H Moch, T Kishida, M Yao, P Schraml, F M Richards, F Latif, E R Maher*  
 712 The loss of calretinin expression indicates aganglionosis in Hirschsprung's disease *I Barshack, E Fridman, I Goldberg, Y Chowers, J Kopolovic*  
 717 Quality control in diagnostic molecular pathology in the Netherlands; proficiency testing for patient identification in tissue samples *F B J M Thunnissen, M G J Tilanus, M J L Ligtenberg, P M Nederlof, W N M Dinjens, E Meulemans, A J C Van den Brule, C J M van Noesel, W J F de Leeuw, E Schuurink, on behalf of the Dutch Pathology Molecular Diagnostic Working Groups*  
 721 Chromosome in situ hybridisation, Ki-67, and telomerase immunocytochemistry in liquid based cervical cytology *A N Y Cheung, P M Chiu, K L Tsun, U S Khoo, B S Y Leung, H Y S Ngan*  
 728 The effect of statins versus untreated dyslipidaemia on renal function in patients with coronary heart disease. A subgroup analysis of the Greek atorvastatin and coronary heart disease evaluation (GREACE) study *V G Athyros, D P Mikhailidis, A A Papageorgiou, A N Symeonidis, A N Pehlivanidis, V I Bouloukos, M Elisaf*  
 735 Versican expression in pharyngeal squamous cell carcinoma: an immunohistochemical study *M J Pukkila, A S T Kosunen, J A Virtaniemi, E J Kumpulainen, R T Johansson, J K Kellokoski, J Nuutinen, V-M Kosma*  
 740 Blood cells with fetal haemoglobin (F-cells) detected by immunohistochemistry as indicators of solid tumours *M Walk, J E Martin, R Constantin*  
 746 Lack of lymphangiogenesis during breast carcinogenesis *M M Vleugel, R Bos, P van der Groep, A E Greijer, A Shvarts, H V Stel, E van der Wall, P J van Diest*

- 752 Plasma glucose measurement with the Yellow Springs Glucose 2300 STAT and the Olympus AU640 *P J Twomey*  
 755 The prognostic value of the AgNOR parameter in human breast cancer depends on the pRb and p53 status *M Derenzini, C Ceccarelli, D Santini, M Taffurelli, D Treré*

**Short reports**

- 762 Evaluation of swab transport systems against a published standard *R P Human, G A Jones*  
 764 The diagnosis of hepatosplenic candidiasis by DNA analysis of tissue biopsy and serum *A Kirby, C Chapman, I Hassan, J Burnie*  
 766 An optimised protocol for the extraction of non-viral mRNA from human plasma frozen for three years *S C C Wong, E S F Lo, M T Cheung*  
 769 The value of an elastic tissue stain in detecting venous invasion in colorectal cancer *D G Vass, R Ainsworth, J H Anderson, D Murray, A K Faulis*  
 773 Are heterogenous results of EGFR immunoreactivity in renal cell carcinoma related to non-standardised criteria for staining evaluation? *C Langner, M Ratschek, P Rehak, L Schips, R Zigeuner*  
 776 High molecular weight caldesmon positive stromal cells in the capsule of hepatocellular carcinomas *H Nakayama, H Enzan, M Yamamoto, E Miyazaki, W Yasui*

**Case reports**

- 778 Cardiac metastasis from a bronchial carcinoid: report of a case presenting with diffuse thickening of the left ventricular wall *M J Goddard, C Atkinson*  
 780 Gonococcal endocarditis: a rare complication of a common disease *A Shetty, D Ribeiro, A Evans, S Linnane*

**PostScript**

- 782 Correspondence  
 783 Book reviews  
 784 Calendar of events  
 784 Corrections

**Echoes**

- 686 COX-2 is strongest predictor of early death in malignant mesothelioma  
 701 Perinatal postmortems: professionals, parents, and clinical trials

Benificial effects of statins on the kidney

Prognostic value of proliferation in invasive breast cancer

My approach to serrated polyps of the colorectum

Discrepancies in current practice of pathological evaluation of SLN in breast cancer. Results of a questionnaire based survey

Molecular genetic analysis of FIH-1, FH, SDHB candidate tumour suppressor genes in renal cell carcinoma

The effect of statins versus untreated dyslipidaemia on renal function in patients with coronary heart disease

Plasma glucose measurement with the Yellow Springs Glucose 2300 STAT and Olympus AU640

Gonococcal endocarditis: a rare complication of a common disease

First published in 1945, Journal of Clinical Pathology is a core publication for workers in all disciplines of clinical pathology. Published monthly, it features high quality research, original papers, and short reports.

Research areas covered are: histopathology; haematology; microbiology, cytopathology; clinical pathology, molecular pathology, forensic pathology; dermatopathology; neuropathology; and immunopathology.

The image representing chemical pathology (see page 784) is published with the kind permission of the Swiss Institute of Bioinformatics (copyright © 2003, Swiss Institute of Bioinformatics, Geneva, Switzerland). Courtesy of Amersham Biosciences Ltd.
