incorporating MOLECULAR PATHOLOGY

Over 60 years
of publication

CONTENTS

December 2005 Vol 58 No 12

Review

- I233 My approach to superficial inflammatory dermatoses *K O Alsaad, D Ghazarian*

Original articles

- I242 Involvement of MMP-7 in invasion of pancreatic cancer cells through activation of the EGFR mediated MEK-ERK signal transduction pathway *X Tan, H Egami, M Abe, F Nozawa, M Hirota, M Ogawa*
- I249 FAT, E-cadherin, β catenin, HER 2/neu, Ki67 immunoeexpression, and histological grade in intrahepatic cholangiocarcinoma *J Settakorn, N Kaewpila, G F Burns, A S-Y Leong*
- I255 mRNA expression of genes involved in lipid efflux and matrix degradation in occlusive and ectatic atherosclerotic disease *S Soumian, R Gibbs, A Davies, C Albrecht*
- I261 Histological examination has a major impact on macroscopic necropsy diagnoses *F D C Bernardi, P H N Saldiva, T Mauad*
- I265 Characterisation of adherens and tight junctional molecules in normal animal larynx; determining a suitable model for studying molecular abnormalities in human laryngopharyngeal reflux *G A Gill, A Buda, M Moorghen, P W Dettmar, M Pignatelli*
- I271 Extensive intestinal metaplasia in gastric carcinoma and in other lesions requiring surgery. A study of 3421 gastrectomy specimens from dwellers of the Atlantic and Pacific basins *C A Rubio, J Jónasson, G Nesi, K Mandai, R Pisano, A King, D Owen*
- I278 Expression of CD1d in human scalp skin and hair follicles: hair cycle related alterations *M A Adley, H A Assaf, M Hussein*
- I283 Survey of clinical allergy services provided by clinical immunologists in the UK *T M El-Shanawany, H Arnold, E Carne, S A Misbah, W Egner, T B Wallington, R Herriot, P E Williams*
- I290 Necrobiotic palisading granulomas associated with breast carcinoma *J D Coyne*
- I294 Light microscopic examination of scalp hair samples as an aid in the diagnosis of paediatric disorders: retrospective review of more than 300 cases from a single centre *V V Smith, G Anderson, M Malone, N J Sebire*
- I299 Frequent overexpression of epidermal growth factor receptor (EGFR) in mammary high grade ductal carcinomas with myoepithelial differentiation *T Shien, T Tashiro, M Omatsu, T Masuda, K Furuta, N Sato, S Akashi-Tanaka, M Uehara, E Iwamoto, T Kinoshita, T Fukutomi, H Tsuda, T Hasegawa*
- I305 Blood film examination for vacuolated lymphocytes in the diagnosis of metabolic disorders; retrospective experience of more than 2500 cases from a single centre *G Anderson, V V Smith, M Malone, N J Sebire*
- I311 Maspin expression in carcinoma ex pleomorphic adenoma *M T Martins, A Altermani, L Freitas, V C Araújo*
- I315 Comparison of the novel quantitative ARMS assay and an enriched PCR-ASO assay for K-ras mutations with conventional cytology on endobiliary brush cytology from 312 consecutive extrahepatic biliary stenoses *N T van Heek, S J Clayton, P D J Sturm, J Walker, D J Gouma, L A Noorduyn, G J A Offerhaus, J C Fox*

Case reports

- I321 Unusual duodenal presentation of leishmaniasis *M L Álvarez-Nebreda, E Álvarez-Fernández, S Rada, F Brañas, E Marañón, M T Vidán, J A Serra-Rexach*
- I323 Two cases of inflammatory muscle disease presenting with raised serum concentrations of troponin *T J S Hamilton, P C Sharpe*
- I325 A "crackleware" oesophagus *M Westerterp, O R C Busch, J J G H M Bergman, F J W ten Kate, J J B van Lanschot*
- I328 Small cell sweat gland carcinoma of childhood *R Drut, O P Giménez, J Óliva*
- I331 Pure testicular carcinoid associated with intratubular germ cell neoplasia *J Merino, A Zuluaga, F Gutierrez-Tejero, M del Mar Serrano, S Ciani, F F Nogales*
- I334 Sclerochoroidal calcification associated with Gitelman syndrome and calcium pyrophosphate dihydrate deposition *R Gupta, V Hu, T Reynolds, R Harrison*

Short reports

- I336 Application of the FICTION technique for the simultaneous detection of immunophenotype and chromosomal abnormalities in routinely fixed, paraffin wax embedded bone marrow trephines *P Korać, M Jones, M Dominis, R Kušec, D Y Mason, A H Banham, R A Ventura*
- I339 Postmortem diagnosis of chronic granulomatous disease: how worthwhile is it? *R Lakshman, S Bruce, D A Spencer, D Crawford, A Galloway, P N Cooper, D Barge, D Roos, T J Flood, M Abinun*
