

Review

673 Molecular pathology of prostate cancer *C Hughes, A Murphy, C Martin, O Sheils, J O'Leary*

Original articles

- 685 Biofilm formation and esp gene carriage in enterococci *A A Ramadhan, E Hegedus*
- 687 Human defensin 5 expression in intestinal metaplasia of the upper gastrointestinal tract *B Shen, E M Porter, E Reynoso, C Shen, D Ghosh, J T Connor, J Drazba, H K Rho, T L Gramlich, R Li, A H Ormsby, M-S Sy, T Ganz, C L Bevins*
- 695 Immunocytochemical detection of deoxycytidine kinase in haematological malignancies and solid tumours *I Hubeek, G J Peters, A J F Broekhuizen, I Talianidis, J Sigmund, B E S Gibson, U Creutzig, G Giaccone, G J L Kaspers*
- 700 Metaplastic breast carcinomas are negative for Her-2 but frequently express EGFR (Her-1): potential relevance to adjuvant treatment with EGFR tyrosine kinase inhibitors? *S Leibl, F Moinsfar*
- 705 Pathological diagnosis of columnar cell lesions of the breast: are there issues of reproducibility? *P H Tan, B C-S Ho, S Selvarajan, W M Yap, A Hanby*
- 710 HER2 amplification status in breast cancer: a comparison between immunohistochemical staining and fluorescence in situ hybridization using manual and automated quantitative image analysis scoring techniques *C M Ellis, M J Dyson, T J Stephenson, E L Maltby*
- 715 The use of LYVE-1 antibody for detecting lymphatic involvement in patients with malignant melanoma of known sentinel node status *D Sahni, A Robson, G Orchard, R Szydlo, A V Evans, R Russell-Jones*
- 722 Cytokeratin phenotyping does not help in distinguishing oesophageal adenocarcinoma from cancer of the gastric cardia *M G F van Lie, F J Bomhof, I Leendertse, M Flens, A T Balk, R J L F Loffeld*
- 725 The presence of benign prostatic glandular tissue at surgical margins does not predict PSA recurrence *K M Kernek, M O Koch, J K Daggy, B E Juliar, L Cheng*
- 729 Antibiotic selection patterns in acutely febrile new outpatients with or without immediate testing for C reactive protein and leucocyte count *Y Takemura, K Ebisawa, H Kakoi, H Saitoh, H Kure, H Ishida, M Kure*
- 734 Cell cycle related proteins as prognostic parameters in radically resected non-small cell lung cancer *V Esposito, A Baldi, A De Luca, G Tonini, B Vincenzi, D Santini, P Persichetti, A Mancini, G Citro, F Baldi, A M Groeger, M Caputi*
- 740 Polymorphism of the 5' flanking region of the IL-12 receptor β 2 gene partially determines the clinical types of leprosy through impaired transcriptional activity *H Ohyama, K Ogata, K Takeuchi, M Namisato, Y Fukutomi, F Nishimura, H Naruishi, T Ohira, K Hashimoto, T Liu, M Suzuki, Y Uemura, S Matsushita*

- 744 Survivability of vancomycin resistant enterococci and fitness cost of vancomycin resistance acquisition *A A Ramadhan, E Hegedus*
- 747 Use of native or platelet count adjusted platelet rich plasma for platelet aggregation measurements *H Mani, B Luxembourg, C Kläffling, M Erbe, E Lindhoff-Last*
- 751 Transformed dermatofibrosarcoma protuberans: a clinicopathological study of eight cases *Z Szollosi, Z Nemes*
- 757 Axillary apocrine carcinoma with benign apocrine tumours: a case report involving a pathological and immunohistochemical study and review of the literature *T Miyamoto, Y Hagari, S Inoue, T Watanabe, T Yoshino*
- 762 No GIST-type c-kit gain of function mutations in neuroblastic tumours *M Korja, J Finne, T T Salmi, H Haapasalo, M Tanner, J Isola*
- 766 Autofluorescence characterisation of isolated whole crypts and primary cultured human epithelial cells from normal, hyperplastic, and adenomatous colonic mucosa *R S DaCosta, H Andersson, M Cirocco, N E Marcon, B C Wilson*

Case reports

- 775 Small cell neuroendocrine carcinoma of the breast: a report of three cases and review of the literature *T Adegbola, C E Connolly, G Mortimer*
- 779 Gastrointestinal stromal tumour treated with neoadjuvant imatinib *M B Loughrey, C Mitchell, G B Mann, M Michael, P M Waring*

JOURNAL OF CLINICAL PATHOLOGY

July 2005 Vol 58 No 7

Molecular pathology of prostate cancer

Biofilm formation and esp gene carriage in enterococci

Immunocytochemical detection of deoxycytidine kinase in haematological malignancies and solid tumours

Metaplastic breast carcinomas are negative for Her-2 but frequently express EGFR (Her-1)

Pathological diagnosis of columnar cell lesions of the breast

HER2 amplification status in breast cancer

The presence of benign prostatic glandular tissue at surgical margins does not predict PSA recurrence

Antibiotic selection patterns in acutely febrile new outpatients with or without immediate testing for C reactive protein and leucocyte count

Polymorphism of the 5' flanking region of the IL-12 receptor β 2 gene partially determines the clinical types of leprosy through impaired transcriptional activity

Survivability of vancomycin resistant enterococci and fitness cost of vancomycin resistance acquisition

Use of native or platelet count adjusted platelet rich plasma for platelet aggregation measurements

First published in 1945, Journal of Clinical Pathology is a core publication for workers in all disciplines of clinical pathology. Published monthly, it features high quality original papers, and short reports.

Research areas covered are: histopathology; haematology; microbiology, cytopathology; clinical pathology, molecular pathology, forensic pathology, dermatopathology; neuropathology; and immunopathology.

The image representing chemical pathology (see page 784) is published with the kind permission of the Swiss Institute of Bioinformatics (copyright © 2005, Institute of Bioinformatics, Geneva, Switzerland). Courtesy of Amersham Biosciences Ltd.
