incorporating MOLECULAR PATHOLOGY

Over 60 years  
of publication

## CONTENTS

July 2006 Vol 59 No 7

### Review

669 What is quality in surgical pathology? *R E Nakhleh*

### My approach

673 My approach to performing a perinatal or neonatal autopsy *H C Wainwright*

681 My approach to internal quality control in a clinical immunology laboratory *R J Lock*

### Original articles

685 Overexpression of cyclo-oxygenase-2 is an independent predictor of unfavourable outcome in node-negative breast cancer, but is not associated with protein kinase B (Akt) and mitogen-activated protein kinase (ERK1/2, p38) activation or with Her-2/neu signaling pathways *K J Schmitz, R Callies, J Wohlschlaeger, R Kimmig, F Otterbach, J Bohr, H-S Lee, A Takeda, K W Schmid, H A Baba*

692 Relationship of p53, Bcl-2, Ki-67 index and E-cadherin expressions in early invasive breast cancers with comedonecrosis as an accelerated apoptosis *N Hosaka, T Ryu, W Cui, Q Li, A Nishida, T Miyake, T Takaki, M Inaba, S Ikehara*

699 Prognostic relevance of P-cadherin expression in melanocytic skin tumours analysed by highthroughput tissue microarrays *R Bauer, P J Wild, S Meyer, F Bataille, A Pauer, M Klinkhammer-Schalke, F Hofstaedter, A K Bosserhoff*

706 Phosphohistone H3 labelling for histoprognostic grading of breast adenocarcinomas and computer-assisted determination of mitotic index *C Bossard, A Jarry, C Colombeix, K Bach-Ngohou, A Moreau, D Loussouarn, J-F Mosnier, C L Laboisse*

711 Correlation of clinicopathological features with immunohistochemical expression of cell cycle regulatory proteins p16 and retinoblastoma: distinct association with keratinisation and differentiation in oral cavity squamous cell carcinoma *D M Muirhead, H T Hoffman, R A Robinson*

716 Expression of receptor activator of nuclear factor  $\kappa\beta$  ligand (RANKL) and tumour necrosis factor related, apoptosis inducing ligand (TRAIL) in breast cancer, and their relations with osteoprotegerin, oestrogen receptor, and clinicopathological variables *S S Cross, R F Harrison, S P Balasubramanian, J M Lippitt, C A Evans, M W R Reed, I Holen*

721 Topoisomerase II- $\alpha$  expression increases with increasing Gleason score and with hormone insensitivity in prostate carcinoma *C Hughes, A Murphy, C Martin, E Fox, M Ring, O Sheils, B Loftus, J O'Leary*

725 Prognostic significance of CDC25B expression in gliomas *H Nakabayashi, M Hara, K Shimizu*

729 Basal-like breast carcinomas: clinical outcome and response to chemotherapy *S Banerjee, J S Reis-Filho, S Ashley, D Steele, A Ashworth, S R Lakhani, I E Smith*

736 Do we need to measure total serum IgA to exclude IgA deficiency in coeliac disease? *D Sinclair, M Saas, A Turk, M Goble, D Kerr*

740 Diagnostic accuracy of core biopsy for ductal carcinoma in situ and its implications for surgical practice *M F Dillon, C M Quinn, E W McDermott, A O'Doherty, N O'Higgins, A D K Hill*

744 External quality assurance of molecular analysis of haemochromatosis gene mutations *M Hertzberg, S Neville, D McDonald*

748 Bacteraemia caused by *Anaerotruncus colihominis* and emended description of the species *S K P Lau, P C Y Woo, G K S Woo, A M Y Fung, A H Y Ngan, Y Song, C Liu, P Summanen, S M Finegold, K Yuen*

753 Weight correction of MoM values: which method? *T M Reynolds, G Vranken, J Van Nueten*

759 Audit of laboratory mycology services for the management of patients with fungal infections in the northwest of England *I A Hassan, P Critten, B Isalska, D W Denning*

764 Comparative genomic hybridisation in malignant decidual mesothelioma *A Scattone, A Pennella, M Gentile, M Musti, P Nazzaro, A L Buonadonna, A Marzullo, D Cavone, L Pollice, G Serio*

### Case reports

770 Malignant histiocytosis: a case report of a rare tumour presenting with spontaneous splenic rupture *S E Low, J S Stafford*

773 Isolated haploinsufficiency of exon I of the *SHOX* gene in a patient with idiopathic short stature *Y-M Tan, K-Y Loke*

### Short report

775 Primary primitive neuroectodermal tumour of the urinary bladder: a clinicopathological study emphasizing immunohistochemical, ultrastructural and molecular analyses *A Lopez-Beltran, C Pérez-Seoane, R Montironi, T Hernández-Iglesias, C Mackintosh, E de Alava*
