

It's safer to specify
...insist on **M&B**

When ordering chemicals, do you simply list the items you need? It is safer and wiser to specify the brand that can be relied on. Why waste time and money on repeat experiments? For confidence in use, specify **M&B** Laboratory Chemicals and Reagents. This range, comprising over 500 different specifications, is firmly established in academic and industrial laboratories throughout the world.

- The following points have found wide-spread appreciation:—*
- ★ Application to a wide variety of general laboratory procedures
 - ★ Controlled production for purity and uniformity
 - ★ Specifications printed on the labels of the containers
 - ★ Containers specially designed for easy handling and maximum protection
 - ★ Pre-packed stocks ensuring prompt despatch of orders

APPLIED CYTOLOGY

By G. R. OSBORN, M.B., B.S.(Melbourne)

*Pathologist to the Derbyshire Royal Infirmary and Derbyshire Hospital for Women; Honorary Lecturer, Department of Pathology, the University of Sheffield*With photography by J. S. FAYERS,
Clinical Photographer, Derbyshire Royal Infirmary

The author of this profusely illustrated new book has made a special study of the detection of malignant tissue in uterus, sputum, breast, urine and ascitic fluid, both in America and in this country, and the present monograph correlates the two sciences of cytology and histology. For the pathologist, the physician and all who are interested in the early diagnosis of cancer this book, discussing pitfalls in diagnosis as well as giving instruction in technique, will be found as useful as it is timely.

More and more hospitals and medical establishments
 are using the *Elliott* AUTOMATIC
TISSUE PROCESSOR

ELLIOTT TISSUE PROCESSORS have been installed in Hospitals and Medical Establishments in the following centres:—

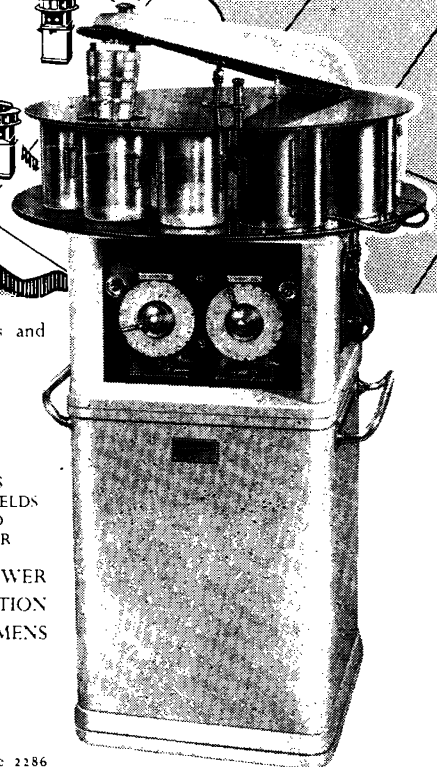

- | | | | |
|----------------|---------------|----------------|--------------------|
| BATH | CARSHALTON | HARLESDEN | REDRUTH |
| BEDFORD | CLATTERBRIDGE | INLEWORTH | SALISBURY |
| BELFAST | CHERTSEY | LIVERPOOL (6) | STIRLING |
| HIRKENHEAD | COLCHESTER | LONDON (11) | STOKE-ON-TRENT (2) |
| BIRMINGHAM (2) | DUBLIN | MANCHESTER (6) | ST. HELENS |
| BOURNEMOUTH | DURHAM | MERTHYR-TYDHL | SOUTH SHIELDS |
| BRADFORD (2) | EDINBURGH | NEWMARKET | WAKEFIELD |
| CAMBRIDGE | ENFIELD | NORWICH | WORCESTER |
| CARDIFF | GRIMSBY | | |

The ELLIOTT AUTOMATIC TISSUE PROCESSOR brings you at LOWER COST the full advantages of AUTOMATIC FIXATION—DEHYDRATION—INFILTRATION—and STAINING of HISTOLOGICAL SPECIMENS further particulars from the makers . . .

the papanicolaou stains for early cancer detection

Early cancer diagnosis by cytologic methods is now widely recognised as a most useful procedure. Accurate diagnosis of pelvic malignancy in women is possible (in the hands of competent experts) with the Papanicolaou Method of obtaining, fixing, and staining utero-vaginal smears. Extremely low rates of diagnostic error have been reported in published series totalling several thousands of cases.

Successful application of the Papanicolaou cytologic method of cancer diagnosis to other body fluids including pleural, peritoneal, prostatic, bronchial, and gastric secretions has also been widely reported and is discussed in detail in several articles.

literature on request

available :

Papanicolaou Stains EA 50, EA 65 and OG 6 in 100 cc. and 500 cc. bottles.

Harris Haematoxylin (Ortho) 100 cc. and 500 cc. bottles.

Vaginal Pipettes and Aspirator Bulbs for obtaining vaginal smears.

Ayre-type spatulae for obtaining cervical smears.
