Review

1073 Transfusion in sub-Saharan Africa: does a Western model fit? *S P Field, J-P Allain*

My approach

1076 Nodal aggressive B-cell lymphomas: a diagnostic approach *S Prakash, S H Swerdlow*

Original articles

- 1086 Expression of EphA2 and EphrinA-1 in vulvar carcinomas and its relation to prognosis *R Holm, S Knopp, Z Suo, C Tropè, J M Nesland*
- 1092 Hodgkin's lymphoma associated T-cells exhibit a transcription factor profile consistent with distinct lymphoid compartments *Ç Atayar, A van den Berg, T Blokzijl, M Boot, R D Gascoyne, L Visser, S Poppema*
- 1098 Periacinar retraction clefting in proliferative prostatic atrophy and prostatic adenocarcinoma *M Ulañec, D Tomas, C Ensinger, H Čupić, M Belicza, G Mikuz, B Krušlin*
- 1102 Naturally-occurring regulatory T cells are increased in inflamed portal tracts with cholangiopathy in primary biliary cirrhosis *M Sasaki, H Ikeda, S Sawada, Y Sato, Y Nakanuma*
- 1108 Isolated tumour cells in pathological node-negative lymph nodes adversely affect prognosis in cancer of the oesophagus or oesophagogastric junction *M J MacGuill, C Barrett, N Ravi, G MacDonald, J V Reynolds*
- 1112 Selecting immunohistochemical cut-off scores for novel biomarkers of progression and survival in colorectal cancer *I Zlobec, R Steele, L Terracciano, J R Jass, A Lugli*
- 1117 Laboratory costs of a hospital-based blood transfusion service in Malawi *A Medina Lara, J Kandulu, L Chisuwa, A Kashoti, C Mundy, I Bates*
- 1121 Melanoma histopathology reporting: are we complying with the National Minimum Dataset? *M R Kaur, P S Colloby, A Martin-Clavijo, J R Marsden*
- 1124 Genotypes and serum concentrations of human alpha-1-antitrypsin "P" protein variants in a clinical population *J A Bornhorst, F R O Calderon, M Procter, W Tang, E R Ashwood, R Mao*
- 1129 Reversing the slow death of the clinical necropsy: developing the post of the Pathology Liaison Nurse *E Limacher, U Carr, L Bowker, R Y Ball*
- 1135 Use of multiple displacement amplification in the investigation of human papillomavirus physical status *M F Evans, C S-C Adamson, G M von Walstrom, K Cooper*
- 1140 Group B streptococcus prevalence in pregnant women from North-Eastern Italy: advantages of a screening strategy based on direct plating plus broth enrichment *M Buseti, P D'Agaro, C Campello*
- 1144 Gross synovial fluid analysis in the differential diagnosis of joint effusion *S Abdullah, S A Young-Min, S J Hudson, C A Kelly, C R Heycock, J D Hamilton*
- 1148 Uterine tumour resembling ovarian sex cord tumour is an immunohistochemically polyphenotypic neoplasm which exhibits coexpression of epithelial, myoid and sex cord markers *D P Hurrell, W G McCluggage*
- 1155 Vancomycin administration: the impact of multidisciplinary interventions *R K Crowley, F Fitzpatrick, D Solanki, S FitzGerald, H Humphreys, E G Smyth*

Case reports

- 1160 Meningococcal meningitis in a patient with urticarial vasculitis: is there a link? *H Alachkar, F Qasim, Y Ahmad, M Helbert*
- 1161 Bickerstaff's brainstem encephalitis related to *Campylobacter jejuni* gastroenteritis *A M Hussain, N J Flint, S A Livsey, R Wong, P Spiers, S S Bukhari*
- 1162 Dermatofibrosarcoma protuberans in a patient with X-linked agammaglobulinaemia *P F K Yong, D Grosse-Kreul, J Maher, J R Salisbury, M A A Ibrahim*
- 1164 Xanthomatosis of the gastrointestinal tract with focus on small bowel involvement *S L Nielsen, P Ingeholm, S Halck, I Talbot*
- 1166 Pure cartilaginous teratoma of the testis: an immunohistochemistry and fluorescence in situ hybridisation study *R Des Jean, J N Eble, S Zhang, L Cheng*
- 1168 Cytophagic histiocytic panniculitis with fatal haemophagocytic lymphohistiocytosis in a paediatric patient with perforin gene mutation *R-L Chen, Y-H Hsu, I Ueda, S Imashuku, K Takeuchi, B P-h Tu, S-S Chuang*
- 1169 Hamazaki-Wesenberg bodies in two patients with no history of sarcoidosis *R Winters, M Kida, K Cooper*

Short reports

- 1171 Gastric MALT lymphoma with t(14;18)(q32;q21) involving *IGH* and *BCL2* genes that responded to *Helicobacter pylori* eradication *S Nakamura, H Ye, C M Bacon, H Liu, A Goatly, T Matsumoto, H Koga, J Umeno, Y Ohji, T Yao, T Nakahara, M Iida, M-Q Du*
- 1173 Fatal circumstances of human herpesvirus 6 infection: transcriptome data analysis suggests caution in implicating HHV-6 in the cause of death *C Sergi, E Daum, I Pedal, B Hauröder, P Schnitzler*
- 1177 Persistent parvovirus b19 infection resulting in carpal tunnel syndrome *M Musiani, E Manaresi, G Gallinella, M Zerbini*
- 1178 An audit of UK pathologists' use of the British Society of Gastroenterology guidelines for the initial biopsy diagnosis of suspected chronic idiopathic inflammatory bowel disease *R M Feakins*
