June 2010 Volume 63 Issue 7

Contents

Original articles
571 Is fusion really a useful marker in distinguishing between classical Hodgkin’s lymphoma and various types of Non-Hodgkin’s lymphomas in difficult cases? V Umar, Z Ahmad, A Junaid, S Pervez
575 Venous invasion demonstrated by orcein staining of colorectal carcinoma specimens is associated with the development of distant metastasis J Sefer, B Ren, C Gerin
579 Aberrant upregulation of MUC4 mucin expression in cutaneous condyloma acuminatum and squamous cell carcinoma suggests a potential role in the diagnosis and therapy of skin diseases C Chaudhary, B J Sefer, N Bondu, S K Vaira
585 Atypical fine needle aspirates of breast lesions P T Tran, L C Vu, A M C Vu, P T Vinh, N H L Tran, T K F Mai, P H Tan, G T Tran
592 Enteropathic histopathological features may be associated with Shwachman–Diamond syndrome V Vieira, D Camacho, J Kagnoff, C Martinelli, F Antinò, R Linday, V V Smith, B Yang, E, N J Saboe
595 Hepatitis C virus infection is significantly associated with malignant lymphomas in Taiwan, particularly with nodal and splenic marginal zone lymphomas S S Chang, Y A Liu, S T Chang, Y C Ho, V S Wu, C C Liu, W N Huang, J Y Lee, C J Tsao, W Y Huang
599 Diagnostic utility of glypican-3 for hepatocellular carcinoma on liver needle biopsy K J Y Wong, Y C Yip, M Zhang, H T Vong, K I Chan, K C Wai, J M Wen
604 KRAS mutation and microsatellite instability in endometrial adenosarcomas showing MIB-1-type immunohistological expression C B Stewart, B Annual, F Gross, A Carvalho, R Szejnraj
609 Oral squamous cell carcinoma: status of tight junction claudins in the different histopathological patterns and relationship with clinical parameters A tissue micro-array-based study of 136 cases A V Leung, C M Carvalho-Carvalho, M C C Ivers, C M Penon, A L Carvalho, L P Fonseca, F A Santos
615 High-grade transformation of adenoid cystic carcinoma: a study of the expression of GLUT1 glucose transporter and of mitochondrial antigen V C Bottecchia, A F Doria, A F Costa, J T Rocha, V C Arzaga, A Albanese

620 Small cell carcinomas in gastrointestinal tract: immunohistochemical and clinicopathological features A F Yu, K E Hooi, C V Y Leong, W Y Li, M S Hui, J S Chan
626 Positive screening and carrier results for the England-wide universal newborn scolix screen programme by ethnicity and area for 2005–07 A Shaw, R Alexander, J Holahan
630 FISH assay development for the detection of p16/CDKN2A deletion in malignant pleural mesothelioma C T S Chung, C D C Santos, J M Huang, O Addlesee, M Pande, J A Spargo, M S Tung
635 C-ecdym immunoreactivity patterns in the characterization of gastric carcinoma histotypes J P R Abadia, V A Fontes, C P Sampaio, F D Kobe, F K Akutsu, B R Freitas, E A A Falele, B C Canada, B A Antunes
640 Application of a novel and low cost technique to construct paraffin tissue microarrays out of paraffinised needle biopsy specimens from patients with breast cancer I F Vogel, B Kihara
644 More than just counting eosinophils: proximal oesophageal involvement and subepithelial sclerosis are major diagnostic criteria for eosinophilic oesophagitis L Sian, W B de Boer, A Aner, C Lee, S Abt, F H Glencross, H H L Chau, T K F Ma, P H Tan, G M Tse
648 A new 24 h ELISA culture-based method for Helicobacter pylori chemosusceptibility J Perea, D Viana
652 Urinary tract pathologies and resistance pattern R Chakravarty, M Aboul, D N Schreiber, S Chennapragada, T Reynolds

Short reports
655 Perforating medical liver core biopsies: correlation between tissue length and the number of portal tracts J Cun, Y Meahub, S Tikka, N Farr
657 Incongruent pigments with ultrastructurally disordered leukocytes S Ho, D Tsai, M Opaliowska, G J R Nowosiowska, W D Gabriel, A Kolar
