

# Journal of Clinical Pathology

Cover legend: Morphological and molecular features of endometrial stromal sarcoma. See page 325.

## Contents

### Editorial

- 323** How to define cumulative cancer length for selecting candidate for active surveillance? *G I Russo, G Morgia*

### Reviews

- 325** Endometrial stromal tumours revisited: an update based on the 2014 WHO classification *R H Ali, M Rouzbahman*
- 333** Review of in situ and invasive penile squamous cell carcinoma and associated non-neoplastic dermatological conditions *M R Downes*

### Original articles

- 341** Smad4 inactivation predicts for worse prognosis and response to fluorouracil-based treatment in colorectal cancer *M M Kozak, R von Eyben, J Pai, S R Vossler, M Limaye, P Jayachandran, E M Anderson, J L Shaffer, T Longacre, R K Pai, A C Koong, D T Chang*
- 346** MCQs Angiotensin II causes cellular proliferation in infantile haemangioma via angiotensin II receptor 2 activation *T Iinteang, R Marsh, P F Davis, S T Tan*
- 351** MCQs Pretreatment lymphocyte–monocyte ratio as a potential prognostic factor in a cohort of patients with upper tract urothelial carcinoma *G C Hutterer, N Sobolev, G C Ehrlich, T Gutsch, T Stojakovic, S Mannweiler, K Pummer, R Zigeuner, M Pichler, O Dalpiaz*
- 356** Visual assessment of Ki67 using a 5-grade scale (Eye-5) is easy and practical to classify breast cancer subtypes with high reproducibility *A I Hida, K Bando, A Sugita, T Maeda, N Ueda, S Matsukage, M Nakanishi, K Kito, T Miyazaki, Y Ohtsuki, Y Oshiro, H Inoue, H Kawaguchi, N Yamashita, K Aogi, T Moriya*
- 362** Low-grade fibromatosis-like spindle cell carcinomas of the breast are molecularly exiguous *E A Takano, S M Hunter, I G Campbell, S B Fox*

## May 2015 Volume 68 Issue 5

- 368** Receptor for hyaluronic acid-mediated motility (RHAMM, CD168) expression is prognostically important in both nodal negative and nodal positive large cell lung cancer *F Augustin, M Fiegl, T Schmid, G Pomme, W Sterlacci, A Tzankov*
- 374** Protein expression of HER2, 3, 4 in gastric cancer: correlation with clinical features and survival *X X He, L Ding, Y Lin, M Shu, J M Wen, L Xue*
- 381** Proteins of the mitotic checkpoint and spindle are related to chromosomal instability and unfavourable prognosis in patients with myelodysplastic syndrome *K R Genga, F D R Filho, F V de A Ferreira, J C de Sousa, F S Studart, S M M Magalhães, F F Heredia, R F Pinheiro*
- 388** Mass spectrometric analysis of unknown haemoglobin fractions identified by high-performance liquid chromatography in an antenatal screening programme *M Griffin, J Eyre, S Dack, J Wright*

### Short reports

- 391** A novel clonal t(1;4)(p36.1;q31) translocation in acute promyelocytic leukaemia *X Zhang, J Pan*
- 394** OPEN ACCESS Testing implications of varying targets for *Bordetella pertussis*: comparison of the FilmArray Respiratory Panel and the Focus *B. pertussis* PCR assay *R C Jervis, S R Williams, H J MacDonald, D R Ingebrigtsen, L F Westblade, B B Rogers*

### PostScript
