

Journal of Clinical Pathology

Cover legend: Molecular analysis of soft tissue tumours.

Contents

Reviews

- 463** The spectrum of histopathological changes encountered in pancreatotomy specimens after neoadjuvant chemoradiation, including subtle and less-well-recognised changes *S N Kalimuthu, S Serra, N Dhani, R Chetty*
- 472** Angiogenesis in melanoma: an update with a focus on current targeted therapies *G Jour, D Ivan, P P Aung*

Gene of the month

- 484** Gene of the month: *SMARCB1* *S N Kalimuthu, R Chetty*

Original articles

- 490** Nodular pulmonary light chain deposition disease: an entity associated with Sjögren syndrome or marginal zone lymphoma *A V Arrossi, M Merzianu, C Farver, C Yuan, S H Wang, M O Nakashima, C V Cotta*
- 497** IgG is involved in the migration and invasion of clear cell renal cell carcinoma *Z Sheng, Y Liu, C Qin, Z Liu, Y Yuan, FengZhan Hu, Y Du, H Yin, X Qiu, T Xu*
- 505** Ancillary molecular analysis in the diagnosis of soft tissue tumours: reassessment of its utility at a specialist centre *K Vroobel, D Gonzalez, D Wren, L Thompson, J Swansbury, C Fisher, K Thway*
- 511** A comparison of formalin and GEWF in fixation of colorectal carcinoma specimens: rates of lymph node retrieval and effect on TNM staging *J Home, N J Carr, A C Bateman, N II Kandala, J Adams, S Silva, I Ryder*
- 518** Selective estrogen receptor modulators and betulinic acid act synergistically to target ER α and SP1 transcription factor dependent Pygopus expression in breast cancer *Y R Tzenov, P Andrews, K Voisey, L Gai, B Carter, K Whelan, C Popadiuk, K R Kao*

June 2016 Volume 69 Issue 6

- 527** Lymphocyte subsets contribute to the degree of lobulitis and ductitis in sclerosing lymphocytic lobulitis of the breast *L-Y Chen, J Y S Tsang, Y-B Ni, S-K Chan, K-F Chan, S Zhang, G M Tse*
- 533** Vascular expression of annexin A2 in lupus nephritis *V Salle, C Cordonnier, J Schmidt, C Mazière, A Smail, C Attencourt, M P Mabile, J C Mazière, R Makdassi, G Choukroun, M Diouf, P Duhaut, J P Ducroix*
- 537** Bone marrow findings in severe fever with thrombocytopenia syndrome: prominent haemophagocytosis and its implication in haemophagocytic lymphohistiocytosis *N Kim, K-H Kim, S J Lee, S-H Park, I-S Kim, E Y Lee, J Yi*

Short reports

- 543** TGF α expression in myeloid malignancies *S Kavanagh, B Mirzai, K Fuller, W N Erber*
- 547** Genetic mutations in accordance with a low malignant potential tumour are not demonstrated in clear cell papillary renal cell carcinoma *M R Raspollini, F Castiglione, L Cheng, R Montironi, A Lopez-Beltran*
