

# Journal of Clinical Pathology

Cover legend: Optimal provision of formalin-fixed, paraffin-embedded material for reverse transcription-polymerase chain reaction in soft tissue tumour diagnosis.

## Contents

### Reviews

- 1 Autoinflammatory diseases: update on classification diagnosis and management *S Pathak, M F McDermott, S Savic*
- 9 Hippo pathway deregulation: implications in the pathogenesis of haematological malignancies *M da Costa Cacemiro, M G Berzoti-Coelho, J G Cominal, S M Burin, F A de Castro*

### Original articles

- 15 High CCL27 immunoreactivity in 'supratumoral' epidermis correlates with better prognosis in patients with cutaneous malignant melanoma *M Martinez-Rodriguez, A K Thompson, C Monteagudo*
- 20 Evaluation of the optimal provision of formalin-fixed, paraffin-embedded material for reverse transcription-PCR in soft-tissue tumour diagnosis *K Thway, D Wren, J Lee, L Thompson, C Fisher, D Gonzalez*
- 25 Expression of proliferation genes in formalin-fixed paraffin-embedded (FFPE) tissue from breast carcinomas. Feasibility and relevance for a routine histopathology laboratory *C Thomas, C Robinson, B Dessauvage, B Wood, G Sterrett, J Harvey, B Amanuel*
- 33 Intermediate microRNA expression profile in Graves' disease falls between that of normal thyroid tissue and papillary thyroid carcinoma *M Pohl, F Grabellus, K Worm, G Arnold, M Walz, K W Schmid, S-Y Sheu-Grabellus*
- 40 Differing expression profiles of *Notch*/enterocyte and *Wnt*/secretory lineage signalling are associated with morphological diversity of appendiceal tumours *X Gui, Z Meng, Y J McConnell, S Liu, V G Falck, L A Mack, W J Temple*
- 51 Review of the national external quality assessment (EQA) scheme for breast pathology in the UK *E A Rakha, R L Bennett, D Coleman, S E Pinder, I O Ellis, On behalf of the UK National Coordinating Committee for Breast Pathology (EQA Scheme Steering Committee)*

## January 2017 Volume 70 Issue 1

- 58 How close are we to standardised extended *RAS* gene mutation testing? The UK NEQAS evaluation *S D Richman, J Fairley, R Butler, Z C Deans*
- 63 Screening of (-SEA)  $\alpha$ -thalassaemia using an immunochromatographic strip assay for the  $\zeta$ -globin chain in a population with a high prevalence and heterogeneity of haemoglobinopathies *W Jomoui, G Fucharoen, K Sanchaisuriya, S Fucharoen*
- 69 Validation of a locally derived serum calcium adjustment equation: relationship with total 25(OH) vitamin D and PTH levels *J J Scargill, J M Guy*
- 75 Haemoglobinopathies that occur with decreased HbA<sub>2</sub> levels: a gene mutation set involving the  $\delta$  gene at a Spanish centre *A Villegas, F A González, J M Nieto, F de la Fuente-Gonzalo, R Martínez, M J Torrejón, P Roperio*

### Short reports

- 81 Prevalence of Shiga toxin-producing and enteropathogenic *Escherichia coli* marker genes in diarrhoeic stools in a New Zealand catchment area *R R Thomas, H J L Brookes, R O'Brien*
- 85 Adherence to recommended UK sampling protocols for detecting mast cell mediator release in perioperative anaphylaxis *W Egner*

### Virtual case of the month

- 89 A rare and unusual cause of mammographic calcification in the breast *A Robinson, A M Shaaban*

### PostScript

- 90 Correspondence

### Correction

- 84 Correction
