

Journal of Clinical Pathology

Cover legend: Urinary cytology reporting using multiprobe FISH testing.

Contents

Review

- 61**  Emerging role of clinical mass spectrometry in pathology
A W S Fung, V Sugumar, A H Ren, V Kulasingam

Best practice

- 70** Laboratory assessment of vitamin K status
D J Card, R Gorska, D J Harrington

Original research

- 76** Prognostic significance of cathepsin V (CTSV/CTSL2) in breast ductal carcinoma in situ
M Toss, I Miligy, K Goringe, K Mital, R Aneja, I Ellis, A Green, E Rakha
- 83** Microsatellite instability detection using a large next-generation sequencing cancer panel across diverse tumour types
J Pang, T Gindin, M Mansukhani, H Fernandes, S Hsiao
- 90** The Paris System for reporting urinary cytology in daily practice with emphasis on ancillary testing by multiprobe FISH
T Vlajnic, A Gut, S Savic, L Bubendorf
- 96** Multiplex fluorescence in situ hybridisation to detect anaplastic lymphoma kinase and ROS proto-oncogene 1 receptor tyrosine kinase rearrangements in lung cancer cytological samples
F Zito Marino, G Rossi, I Cozzolino, M Montella, M Micheli, G Bogina, E Munari, M Brunelli, R Franco

February 2020 Volume 73 Issue 2

- 102** Cell block processing is optimal for assessing endoscopic ultrasound fine needle aspiration specimens of pancreatic mucinous cysts
N A C S Wong, P Gwiti, T Murigu, Z Melegh, S Beavers, F Gordon, E Alexandridis, S Norton
- 107**  Somatic deletion of *KDM1A/LSD1* gene is associated to advanced colorectal cancer stages
R Ramirez-Ramirez, M Gutiérrez-Angulo, J Peregrina-Sandoval, J M Moreno-Ortiz, R A Franco-Topete, F d J Cerda-Camacho, M d I L Ayala-Madrigal
- 112** Correlation of the quantitative level of MGMT promoter methylation and overall survival in primary diagnosed glioblastomas using the quantitative MethyQESD method
C von Rosenstiel, B Wiestler, B Haller, F Schmidt-Graf, J Gempt, M Bettstetter, L Rihani, W Wu, B Meyer, J Schlegel, F Liesche-Starnecker

Short report

- 116** Testing for *BRAF* fusions in patients with advanced *BRAF/NRAS/KIT* wild-type melanomas permits to identify patients who could benefit of anti-MEK targeted therapy
G Le Flahec, M Briolais, B Guibourg, G Lemasson, J-L Grippari, F Ledé, P Marcorelles, A Guen

Virtual case of the month

- 120** Tonsillar follicular large B-cell lymphoma with *IRF4* rearrangement causing sleep apnoea
Y-T Yu, S Sakata, K Takeuchi, L J Medeiros, K-C Chang
