

# The Pill

## Biochemical Consequences

---

Symposium organized by  
The Association of Clinical Pathologists  
and The Association of Clinical Biochemists  
delivered in London on 27 September 1969

---

Edited by  
Merton Sandler and Barbara Billing

Published as a supplement to the  
Journal of Clinical Pathology by the  
British Medical Association, Tavistock Square, London, WC1

*The Journal of Clinical Pathology is published nine times a year by the British Medical Association, from B.M.A. House, Tavistock Square, London. It is edited by A. G. Signy*

- Orthonovum, 50  
 Ovarian hormones, effect on tryptophan metabolism, 37  
 Ovulen, 31, 32, 33, 34, 35, 50, 51, 53, 59, 76
- Plasma cortisol, 51, 52  
 — proteins, 3  
 — renin, 49
- Platelets *See* Blood platelets
- POLLER, L.: Relation between oral contraceptive hormones and blood clotting, 67
- Porphyria, 8
- Prednisolone, 56
- Pregnancy, effect on cortisol metabolism, 17  
 —, intrahepatic cholestasis in, 5, 7  
 —, liver disturbances in, 6  
 —, — weight in, 8  
 —, plasma enzyme levels in, 3  
 —, — protein levels in, 3  
 — risks compared with thromboembolic risks with oral contraceptives, 65
- Pregnanediol, 7
- Premarin, 76, 77
- Progesterone, 6, 8, 13, 20, 21, 28, 40, 44, 46, 53, 55, 59  
 —, effect on monoamine oxidase activity in rat, 45
- Progestogen-oestrogen contraceptives *See* Contraceptives, oral
- Progestogens, 20, 53, 54  
 — and blood clotting, 70  
 —, effect on endometrial monoamine oxidase activity 44  
 — used alone, 11, 12, 15, 16, 17, 39, 70
- Proteins, plasma, 3
- PRYSE-DAVIES, J. *See* SOUTHGATE, J., COLLINS, G. G. S., PRYSE-DAVIES, J., and SANDLER, M.
- Pseudocholinesterase, serum, 3
- Pyridoxine hydrochloride, 39
- Pyruvate, blood levels. 21, 24, 27
- Renin, plasma levels, 49  
 — substrate, 49
- Ribonucleic acid content of liver, 8
- ROSE, D. P.: Effect of ovarian hormones and oral contraceptives on tryptophan metabolism, 37
- SANDLER, M. *See* SOUTHGATE, J., COLLINS, G. G. S., PRYSE-DAVIES, J., and SANDLER, M.
- Serum lipid levels, 55
- SOUTHGATE, J., COLLINS, G. G. S., PRYSE-DAVIES, J., and SANDLER, M.: Effect of contraceptive steroids on monoamine oxidase activity, 43
- Stilboestrol, 39, 44, 77
- Thromboembolism, 67  
 —, epidemiological studies of, 62  
 —, genetic factors in, 65  
 —, risk with oral contraceptives compared with pregnancy and other risks, 65
- Thrombosis, 60
- Thyramine oxidase, plasma, 45
- Thyroid hormone levels, 60
- TREE, M. *See* WEIR, R. J., TREE, M., and FRASER, R.
- Triglycerides, serum levels, 56
- Tryptophan metabolism, 37  
 — abnormalities, clinical significance of, 41  
 — oxygenase, 37, 40
- VESSEY, M. P.: Epidemiological and public health aspects of oral contraceptives and thromboembolic disease, 62
- Vitamin B<sub>6</sub> deficiency, 37, 40, 41  
 — — metabolism, 41
- WEIR, R. J., TREE, M., and FRASER, R.: Effect of oral contraceptives on blood pressure and on plasma renin, renin substrate and corticosteroids, 49
- WYNN, V., and DOAR, J. W. H.: Effects of oral contraceptives on carbohydrate metabolism, 19  
 —. *See also* DOAR, J. W. H., and WYNN, V.
