

Drugs and Disease

Symposium organized by
The Royal College of Pathologists
delivered in London in February 1975

Edited by
SHEILA WORLLEDGE

Published for The Royal College of Pathologists by the
Journal of Clinical Pathology, BMA House, Tavistock Square
London WC1H 9JR England

Index

- Absorption, drug interactions during, 95
ADJEPON-YAMOAH, K. K. *See* PRESCOTT, L. F., FORREST, J. A. H., ADJEPON-YAMOAH, K. K., and FINLAYSON, N. D. C.
Adrenergic neurone-blockading drugs in hypertension, 36
— receptor-blockading drugs, 37
Aerosols, bronchodilator, prescribing of, survey of, 11
Agranulocytosis, drug-induced, 46, 47
Amidopyrine, agranulocytosis induced by, 46, 48
Anaemia, haemolytic, drug-induced, 46, 47
Anaesthesia, mechanism of, 1
Analgesic nephropathy, 14
—, aetiology of, 18
—, and neoplasia, 20
—, clinical syndrome of, 14
—, pathogenesis of, 17
—, pathological diagnosis of, 17
—, pathology of, 14
Ancrod, 52
Anion-exchange resins in hyperlipoproteinaemia, 109, 110
Antibiotics, sale of, survey of, 12
Antibodies, drug-specific, damage to drug-coated cells by, 47
Anticoagulants, 51
—, indications for, 52
Antidiabetic drugs in relation to vascular events, evaluation of, 99
—, oral, prescribing of, survey of, 11
Antiplatelet agents, 50
Arsenic Act (1851), 119
Aspirin and renal disease, 19
Autoimmune phenomena induced by drugs, 47
Autonomic ganglion-blockading drugs in hypertension, 36
Azathioprine, toxicity of, 26, 30, 31, 32
- Bacterial infections and immunosuppressive agents, 28
BARNES, J. M.: The widespread use of pesticides, 115
Bedford 8½-year Analysis of tolbutamide in diabetes, 101
— Tolbutamide Trial in diabetes, 100
Blood cells, damage mediated by immune complexes, 46
—, drug-coated, damage by drug-specific antibodies to, 47
— disorders, drug-induced, 40
— dyscrasias, allergic, drug-induced, immunological mechanisms in, 46
—, —, —, serological methods for detection of, 48
British Pharmacopoeia, 119
Bronchodilator aerosols, prescribing of, survey of, 11
- CAMERON, J. S.: Problems with immunosuppressive agents in renal disease, 24
Cardiovascular disorders, effect of antidiabetic agents, evaluation of, 99
Central nervous system and antihypertensive drugs, 38
Cephalothin, anaemia and thrombocytopenia induced by, 47
Cholestasis associated with drugs, 73
Cholestatic hepatitis associated with drugs, 67
CLAIREAUX, A. E.: The effect of oxygen on the lung, 75
Clofibrate in hyperlipoproteinaemia, 108, 110
Clonidine in hypertension, 37
Clotting and fibrinolysis, 50
Committee on Safety of Medicines, 121
Contraceptive pill, skin reactions to, 55
Coronary heart disease and hypolipaeic drugs, 106
Coumarin compounds, 51
Cyclic nucleotides, effect on red cell shape, 41
Cyclophosphamide, toxicity of, 27, 30, 31
- Dangerous Drugs Acts, 120
DDT, 116
Diabetes, phenformin in, trials of, 102, 103
—, tolbutamide in, mortality and morbidity, 101
—, —, —, trials of, 100, 101
Dicophane, 116
Diet, lowering of serum lipids by, effect on coronary heart disease, 112
—, restriction in hyperlipoproteinaemia, 111
Dinitroorthocresol, 115
Diuretics, thiazide, in hypertension, 37
- Drugs, action, mechanisms of, 1
—, —, specific and nonspecific, 1
—, acute liver injury associated with, 66
—, adverse reactions to and interactions of, incidence of, 94
—, —, —, incidence of, 7
—, —, —, intensive monitoring of, 9
—, —, —, literature on, 8
—, —, —, registry reports of, 8
— and kidney, 14
— and liver, 62
— and lung, 75
— and skin, 54
—, as cause of death, 12
—, autoimmune phenomena induced by, 47
—, benefits and hazards, 94
—, blood disorders induced by, 40
—, —, dyscrasias induced by, immunological mechanisms in, 46
—, —, —, serological methods for detection of, 48
—, cells coated with, damage by drug-specific antibodies to, 47
—, chronic liver disease associated with, 71
—, clinical aspects of, and skin diseases, 54
—, effect on red cell membranes, and factors determining normal red cell shape, 40
—, fixed drug eruptions, 60
— in hypertension, 36
—, interactions and lethal combinations, 94
—, —, at sites of metabolism and excretion, 96
—, —, before administration, 94
—, —, during absorption, 95
—, —, in gut, 94
—, —, pharmacodynamic, 96
—, —, plasma-protein-binding, 95
—, metabolism in liver disease, 62
—, safety of, legislation on, 119
—, skin reactions to, immunological mechanisms in, 58
—, therapeutic audit of, 10
—, toxicity, molecular basis of, 1
— with direct action on vascular resistance, 37
- Epidermal necrolysis, toxic, due to drugs, 56
Erythema due to drugs, 56
Exanthematous eruptions due to drugs, 54
- Fat solubility and anaesthetics, 1
Fibrinolysis and clotting, 50
—, pharmacological enhancement of, 52
Fibrinolytic therapy, indications for, 53
FINLAYSON, N. D. C. *See* PRESCOTT, L. F., FORREST, J. A. H., ADJEPON-YAMOAH, K. K., and FINLAYSON, N. D. C.
FORREST, J. A. H. *See* PRESCOTT, L. F., FORREST, J. A. H., ADJEPON-YAMOAH, K. K., and FINLAYSON, N. D. C.
Fungal infections and immunosuppressive agents, 28
- Ganglion-blockading drugs, autonomic, in hypertension, 36
Gin Acts, 119
Gonadal damage and immunosuppressive agents, 30
Granuloma, Wegener's, immunosuppressive agents in, 25
- Haemolytic anaemia, drug-induced, 46, 47
Halothane anaesthesia, severe hepatic necrosis after, 68
Hamman-Rich syndrome, 79
Heparin, 51
Hepatic necrosis, severe, associated with drugs, 68
Hepatitis, acute, associated with drugs, 67
—, cholestatic, associated with drugs, 67
Hepatocellular disease associated with drugs, 72
HOWARD, A. N.: Hypolipaeic drugs and coronary heart disease, 106
Hydrallazine, autoimmune phenomena induced by, 47
— in hypertension, 37
Hyperlipoproteinaemia, 106
—, advisability of treatment in, 113
—, dietary restriction in, 111
—, drugs used in, 108
—, —, —, in combination for, 110
Hypersensitivity reactions mediated by T lymphocytes, 59

- Hypertension, drug treatment of, 36
 —, treatment regimes in, 38
 Hypnotic drugs, prescribing of, survey of, 10
 Hypoglycaemic drugs, oral, prescribing of, survey of, 11
 Hypolipaeic drugs and coronary heart disease, 106
 —, types and effects, 108
 — used in combination, 110
- Immune complexes, cell damage mediated by, 46
 Immunological mechanisms in drug-induced blood dyscrasias, 46
 — in skin reactions to drugs, 58
 Immunosuppressive agents in renal disease, 24
 —, unwanted effects of, 25
 Infection, facilitation of, and immunosuppressive agents, 27
 Intestine, drug interactions in, 94
